Special Concert Featuring Terry Robb

— Blanchard Community Center —

This promises to be an amazing concert...make your plans now to attend!

Returning to Create is Terry Robb, international acoustic guitarist on Saturday, April 27th at 6pm, at 900 W. 4th Street in Newport, Washington. Blues, Ragtime and Slide are performed by his rapid finger picking style.

He has produced 15 albums, is a sought-after teacher, touring in the US, Canada, and Europe. He shared the stage with B.B. King, Joe Crocker, David Crosby, Leo Kottke and more. His TV appearances profile American roots and blues music. Films include "Game of Thrones," and "The Horse Whisperer."

Rathdrum Area Voters:
From your former mayor of 16 years

HOPING FOR A LARGE VOTER TURNOUT MAY 21ST

(Or how the people take back the Kootenai County Republican Central Committee)

Are you tired of the problems at North Idaho College, The Library System, the school districts and the Assessors office mess? Are you tired of your tax payer dollars being spent on court cases? Do you want to have the choice of strong leaders running for our Community offices again? Or do you like the current members of the Kootenai County Republican Central Committee who largely serve in CDA, Post Falls and the County, recommending who's on the Governing Board of Rathdrum? Shouldn't that decision be made by us the citizens of Rathdrum?

I firmly agree in the need and value of the KCRCC. They should be the official voice of the Kootenai County Republican Party. However the official voice does not mean the only voice. Yet, the current members of the KCRCC and its leadership have endorsed themselves as the only Republicans in the county. Just read their publications. (FAKE NEWS.) The truth is many Republican grassroot PAC's exist in the state. The North Idaho Republicans being one of the biggest. While I am not a member yet, I do thank them for their support and encouragement.

The current KCRCC members are not gifted their positions. All 73 members are up for election this year, most or all of the races are contested. The election for these 73 positions is on primary day, May 21st. We the voters will decide the makeup of the KCRCC, and the direction it takes. Please take a few minutes and visit the North Idaho Republican website at northidahorepublicans.org. You will find information for all the candidates they support, including all in the Rathdrum area. Names you will recognize as long time and giving members of the Rathdrum Community. We're asking for your vote!

WE WANT TO BE YOUR VOICE:

Turn In Poachers, Call 1-800-TIP-MONT

— Montana Fish, Wildlife & Parks —

HELENA - The Montana Fish, Wildlife & Parks toll-free hotline for reporting wildlife poaching, property damage, and violations of fish and game laws is in operation 24 hours a day.

TIP-MONT is the acronym for Turn in Poachers—Montana. Poaching includes:

- hunting out of season or at night using spotlights
- taking more than one's legal limit
- nonresidents who purchase resident licenses
- professional and commercial poachers who illegally offer outfitter and guide services.

When it comes to poaching, Montanans are saying, "Enough is enough!"

If you witnesses a fish and game violation, or property vandalism, you can report the crime by calling 1-800-TIP-MONT (1-800-847-6668); or Report a Violation online at fwp.mt.gov, then click Enforcement.

Callers may remain anonymous and may be eligible for a cash reward.

National Space Day First Friday in May

— National Day Calendar —

National Space Day dedicates the first Friday in May to the extraordinary achievements, benefits, and opportunities in the exploration and use of space. The goal of the observance is to promote math, science, technology, and engineering education in young people. The hope is to inspire them to pursue a career in science, especially a career in space-related jobs.

Careers in space involve a wide range of specialties. Going to space requires many working parts, and that's not just the parts that go into space. All kinds of engineers build the equipment, computers and make the computations.

Accountants and public relations manage the books and the press. Meteorologists, chemists, physicists, and biologists analyze data and doctors monitor the health of the astronauts. As preparations are underway, photographers and writers record the events.

While we've only been exploring space for less than 60 years, we continue to learn so much. Imagine all the roles in space you can fill. While we've named a few here, how many more careers can you name? Do you know which one is yours?

How To Observe National Space Day

Teachers, students, space-related organizations, groups, and agencies hold celebrations, demonstrations, and educational programs each year. The day has grown rapidly in recent years and is celebrated worldwide as International Space Day. Join an event near you. Other ways to celebrate include:

- Build a model rocket and launch it.
- Watch your favorite launch. Is it the Hubble Space Telescope, Apollo 11, or SpaceX Falcon 9?
- Look for the International Space Station as it orbits the Earth.

Get involved by sharing your knowledge and skills, too! Host an event and share your experiences. Share your favorite space pictures using #NationalSpaceDay

National Space Day History

In 1997, Lockheed Martin Corporation created National Space Day as a one-day event. In 2001, due to its extreme popularity, former astronaut and senator John Glenn expanded Space Day to International Space Day.

Construction Work Begins on Post Falls North Channel Dam Rehabilitation Project

Falls Park parking lot will be closed for the duration of the project.

— Avista Utilities —

Avista has begun a multi-year project to rehabilitate the spillway for the Post Falls North Channel Dam. The work will include rehabilitation of the dam's concrete structure, replacement of its steel spillway gates and gate hoists, and upgrades to the electrical and control systems.

This rehabilitation project will impact access to some areas of Falls Park to maintain safety for the public, recreationists, and workers. The parking lot will be closed to the public and used as a staging area for construction-site materials, equipment, and vehicles. The parking lot will be reopened when the project is completed, expected to be in 2027.

Limited sections of the park, including the boardwalk and one of the three dam overlooks, will be closed to accommodate construction activity and maintain public safety. Most of the other pedestrian trails throughout the park will remain open to the public, as well as the restroom, fishing pond, and playground. The pond will also continue to be stocked for fishing.

The Falls Park parking lot is scheduled to be closed the morning of Wednesday, May 1. Additionally, Avista will be installing construction and directional signage at key locations throughout the park. For everyone's safety, it is critical to comply with construction signs and stay out of fenced construction areas. Once the new spillway gates are in service, Falls Park will be restored to pre-existing or better condition.

Avista anticipates that Coeur d'Alene Lake water levels will not be impacted by this project.

For more information and to stay updated about the Post Falls North Channel Dam Rehabilitation Project, please visit: www.myavista.com/postfallsNCD

Strange BUT TRUE

By Lucie Winborne

- Pass the Beano! In Japan, they used to hold contests to see who could fart the longest and loudest. The winner received a prize and high honors.
- Leeches have 32 brains.
- In June 2017, a tire shop in Fort Worth, Texas, was robbed so often that the owner bought a guard dog. But that didn't solve the problem -- the next time the shop was robbed, the intruders stole the dog!
- Native Americans planted "Three Sisters"--corn, beans and squash -- together for their mutual benefit. Corn provided a structure for the beans to climb, beans provided nitrogen to the soil, and squash spread along the ground, preventing the growth of weeds.
- PayPal once accidentally credited a man with \$92 quadrillion.
- "Highway hypnosis" is a mental state where a person can drive a vehicle great distances while responding to external events in a safe and correct manner, but with no recollection of having consciously done so.
- Andrew Myrick, a storekeeper on a Minnesota Native American reservation, allegedly suggested that starving natives eat grass. While the quote's validity has been debated, he was notably found dead on the first day of the Dakota War of 1862 with grass stuffed in his mouth.

- The average man spends about one year of his life staring at women.
- A tattoo needle doesn't actually inject ink. It's just coated with pigment and your skin absorbs the color via capillary action.
- In 2014, 13-year-old Danielle Lei, a Girl Scout in San Francisco, became the first Girl Scout to make news by selling cookies outside a marijuana dispensary, unloading an impressive 117 boxes in just two hours.

Thought for the Day: "You must believe in yourself enough to be the person now that others will remember you for later." -- Greg Plitt

Regency Style

Furniture revivals have taken place since at least the 19th century and probably earlier. New technology made earlier ornate styles easier and less expensive to make, and therefore more accessible to the average buyer. Some are difficult to distinguish from authentic pieces. If you see the word "style" in a description, it is probably a copy or revival piece not an authentic piece from the period.

For example, this wine rack is described as "Regency style." It was made in the 20th century, not the Regency period, and it sold for \$813 at New Orleans Auction Galleries. The Regency period was from 1811 to 1820 in England, when King George III's son served as Prince Regent. The corresponding American furniture period is American Empire.

Both Regency and Empire were influenced by classical art of ancient Greece, Rome and Egypt. Mahogany was a favorite wood. This wine rack imitates mahogany with a dark stain on pine wood. The wine rack has a brass gallery on top and ring handles on the sides, features that can be seen on authentic pieces from the Regency period.

Q I have an L.C. Smith typewriter, serial number is "1386874B." Are old manual typewriters worth anything?

A: Lyman C. Smith and his brothers made guns before they made typewriters. They started making a few typewriters in their gun shop after 1884. In 1887, they sold the gun business and founded Smith Premier Typewriter Co. in Syracuse, New York. It became L.C. Smith & Bros. Typewriter Co. in 1903. The company merged with Corona Typewriter Co. in 1925 to become L.C. Smith & Corona Typewriter Co. Personal computers replaced typewriters in most homes, schools and offices beginning in the 1980s. Smith-Corona no longer makes typewriters; it now makes thermal labels. The serial number on your typewriter indicates it was made in 1937. Some old typewriters are collectible and sell for a few hundred dollars. A few rare typewriters sell for more than \$1,000. Many common old typewriters sell for \$20 to \$50.

Although it was made in the 20th century, this wine rack brings Regency style into a modern setting.

TIP: To clean furniture, dip your dusting cloth in 1/2 cup of vinegar mixed with a teaspoon of olive oil.

Bird Day May 4th

— National Day Calendar —

We honor our feathered friends on several holidays called Bird Day in the United States. The day celebrates birds of all kinds across North America.

With over 2,000 species of birds in North America, birdwatchers and nature lovers alike will appreciate the beauty and variety of these winged friends offer. From songbirds to waterfowl and domesticated birds, they come in every color of plumage and wingspan.

During the spring, migrating birds move to their summer nesting grounds. It's an excellent time for those new to birdwatching to learn to identify birds by species. Enthusiasts also know that birds will migrate through backyards and stop for a rest, a bite to eat, and a drink if the right habitat is provided. They stand prepared by their windows with binoculars and watch as new visitors arrive daily. Whether it's an oriole, a tree swallow, the ruby-throated hummingbird, or an American Finch, you'll want to make sure you've prepared food, natural habitat and water sources for your guests.

However, it's not just the passersby that get birdists excited. It's the long term residents and those of the greater outdoors. Year after year they watch

robins collect their nesting material or chickadees caring for their brood. They wander through nature preserves seeking a glimpse of a varied thrush or a prairie warbler. When they do, they are often graced with a privileged view of a bald eagle soaring above them.

How To Observe Bird Day

Enjoy the pleasure of viewing and listening to the birds in your neighborhood. Share your favorite birdwatching experiences. While you're out and about, take photos. As you do, promote habitat conservation and preservation using #BirdDay to post on social media.

Bird Day History

Charles Almanzo Babcock, Oil City, Pennsylvania Superintendent of Schools, established the first Bird Day in 1894. It was also the first holiday in the United States dedicated to the celebration of birds. Babcock founded the day, observed annually on May 4th, to advance bird conservation as a moral value.

FLASH BACK

POP, ROCK & SOUL TRIVIA BY MICK HARPER

1. Who was the first artist to release "The Wonder of You"?
2. Name the artist who released "Do Right Woman, Do Right Man."
3. Who released "My Baby Loves Lovin'?"
4. Who wrote and released "The Boxer"?
5. Name the song that contains this lyric: "Après tous les beaux jours, Je te dis merci, merci, You were the answer of all my questions."

- Answers*
1. Ray Peterson, in 1959. But it was Elvis Presley, in 1970, who took the song to the top of the charts.
 2. Aretha Franklin, in 1967. The song has been widely covered by others, including The Flying Burrito Brothers and Joe Cocker.
 3. White Plains, in 1969. For years there was debate in the industry about who sang lead on the song, with most betting it was session singer Tony Burrows. Turns out it was band member Ricky Wolff after all.
 4. Simon & Garfunkel, in 1969. It's said the song took 100 hours (and recording in multiple locations) to get the final version.
 5. "Ma Belle Amie," by Tee-Set in 1970. The French lyric translates to "After all the beautiful days, I say thank you, thank you." The song did well globally, even going to No. 1 in Africa.

Clark Fork River Produces New State Record Westslope Cutthroat Trout

— Idaho Dept. of Fish & Game —

Congratulations to Daniel Whitesitt of Post Falls, Idaho on landing a new Catch-and-Release state record for Westslope Cutthroat Trout. Daniel hooked the lunker trout while fishing the Clark Fork River in northern Idaho on April 13, 2024. After landing the fish, Daniel recorded the required measurements and photos to document the fish's impressive length before releasing the trout to fight another day. At 25 inches long, the Daniel's fish eclipsed the previous record of 24 inches set by Madison Nackos in 2021 from nearby Priest Lake.

Westslope Cutthroat Trout are found in rivers (and some lakes) primarily throughout central and northern Idaho. They rarely exceed 20 inches, making this an exceptional catch. Cutthroat Trout are Idaho's "state fish", and the Westslope Cutthroat Trout is one of three subspecies native to the state, along with the Bonneville and Yellowstone Cutthroat Trout. Get inspired about these cool native trout in this new short film, A Cutthroat Story, which you can see at www.youtube.com/watch?v=GBh17LihFOI.

Think you might have a chance at landing a record fish? A complete list of Idaho records and how to apply for one are available on the state record fish page at idfg.idaho.gov/fish/record.

Photo: Daniel Whitesitt hoists a trophy Westslope Cutthroat Trout from the Clark Fork River. The 25-inch trout set a new "catch-and-release" state record.

May

— National Day Calendar —

May is the fifth month of the year in the Gregorian and its predecessor, the Julian calendar. Named after the Greek goddess, Maia who is also identified Bona Dea (the Roman goddess of fertility), May is the time of spring in the Northern Hemisphere. In the Southern Hemisphere, May is a season of Autumn.

Originally the third month of the year, May later moved to the fifth month when January and February were added to the calendar. It contains 31 days.

Weather & Seasons

The fifth month is also the last month of Spring. Some Native American tribes called the May full moon The Full Flower Moon, The Corn Planting Moon or the Milk Moon.

Those born in may fall under either the Earth sign Taurus (the bull) or Gemini (the twins). Their birthstone is the beautiful emerald which comes in shades of green. The flower for May is the Lily of the Valley which represents purity, motherhood, humility, chastity and sweetness.

May is also full of myths and superstitions, like these:

- To maintain a youthful appearance and enhance your beauty, wash your face in the dew you collect on the morning of the first of May.
- Marry in May, you'll rue the day. It is considered very bad luck to get married in May; perhaps because it is considered by some to be the wedding month of the God and Goddess and it would be very rude to upstage them.
- Wash a blanket in May, you'll wash a dear one away. It is bad luck to wash your blankets in May or to buy a new broom.
- According to one superstition, children born this month will be sickly all their lives and cats born this month won't catch mice, but might bring snakes into the house.
- Good weather in May is not necessarily a good thing.
- A wet May brings a big load of hay.
- A cold May is kindly and fills the barn finely.
- Mist in May and heat in June makes harvest come right soon.

What's Your Sign?

Those born in may fall under either the Earth sign Taurus (the bull) or Gemini (the twins). Their birthstone is the beautiful emerald which comes in shades of green. The flower for May is the Lily of the Valley which represents purity, motherhood, humility, chastity, and sweetness.

5 Fast Facts

1. The name May is derived from Maia. She happens to be a Greek Goddess, the Goddess of fertility, Spring and growth.
2. People who are born in May are more likely to achieve higher success and more love in their

life. Even though it's mostly a relative fact, May people have a better grasp on these elements of life than people born in other months. The birthstone for May is Emerald.

3. Those born in May also share their birth month with:

- Dr. Benjamin Spock
- Engelbert Humperdinck
- Sigmund Freud
- Orson Wells
- Mary Mahoney
- Gary Cooper
- Eva Peron
- Marion Mitchell Morris

- Miles Davis
- Sally Ride
- Harry S. Truman
- John F. Kennedy
- Dwayne Johnson
- Adele
- George Clooney

- Roma Downey
- Rosario Dawson
- Bono
- Frances Fisher
- Emilio Esteves
- Gabriel Byrne
- Stevie Wonder
- Cate Blanchet
- George Lucas

- Janet Jackson

- Tina Fey
- Cher
- Mr. T
- Drew Carey
- Bob Dylan
- Ian McKellen
- Mike Myers
- Octavia Spencer
- Helenda Bonham Cater
- Lenny Kravitz
- Louis Gossett Jr.
- Carrie Mulligan
- Wynonna Judd
- Clint Eastwood

4. The Anglo Saxon word for May was "Tri-Milchi" meaning 3 milks because the grass had become so lush and green that you could milk the cows three times a day!

5. In 1644, England banned Maypoles. These are poles usually made of wood and long enough to stand as a celebration prop for European festivals. Maypole dances are held in May, usually on May Day. However, some European countries celebrate May Day in mid-summer as well. Even after such restriction, people used to put up maypoles to celebrate their May festivals. One such maypole, which was 123 feet long, was put up in London; this was done to observe Charles II's return. However, this maypole was later used by Isaac Newton to support his telescope.

Dust Off The Fishing Rod And Plan Your Next Family Fishing Outing This Spring

Part 1 of 3

— Idaho Dept. of Fish & Game —

Itchin' for some fishin'? Here are some of the best statewide spring fishing holes for new anglers and families

Old man winter has finally hit the bricks, and as the temperatures creep up fish get a little more active and Idaho Fish and Game stocking trucks start delivering more fish across the state.

Maybe ol' Saint Nick delivered a new fishing pole to a kid during Christmas, or your trusty old fishing rod has been stuck in the rafters since last year, but either way, the time is here to get out on the water and try to catch some fish.

Spring fishing is an exceptional opportunity for new or seasoned anglers wanting to get back on the water with their friends or families.

Trout are a favorite quarry in early spring because they remain active year-round, but they perk up as water starts to warm after the cold winter. Fish and Game stocks tens of thousands of trout for anglers every month, and spring and early summer are the busiest time of year for hatchery crews.

But trout aren't the only type of fishing available. Warmwater fishing can bounce back remarkably fast with a streak of warm, sunny weather, and many other species, such as perch, crappie and bluegill, become very active during spring.

A good rule of thumb is fish like warming or stable weather during spring, but fishing tends to fall off when there's a cold spell. With so many fishing opportunities near Idaho's cities and towns, spring is a good chance to check out your local waters.

Not sure where to go fishing? Check out these easily accessible and regularly stocked lakes and ponds around the state.

Panhandle Region

Coeur d'Alene Lake & Chain Lakes

If you've never tried your hand at catching a northern pike, maybe this is the year to give it a go. April is a great month to get after them from a boat or the shoreline. At this time of year, pike can be targeted from shore by simply using a bobber and bait. Catch rates typically aren't high in the early spring, but it is certainly when some of the biggest fish get caught. As the water warms, northern pike will more actively chase lures making them well-suited to be targeted from a boat. Pike typically take up residence in shallow bays, so check out the Chain Lakes or any of the shallow bays in Coeur d'Alene Lake to hook up with one this year.

Not into pike fishing? No problem. Coeur d'Alene Lake offers outstanding smallmouth bass fishing in the spring. And any of the 10 Chain Lakes offer good opportunity for bass, bluegill, crappie and even channel catfish in Rose Lake.

Fernan Lake

Fernan Lake lies only a stone's throw away from Coeur d'Alene city limits, and it offers anglers the chance to catch perch, crappie, bluegill, bass, channel catfish and rainbow trout. Beginning in early-April and ending in October, Fernan Lake is stocked with nearly 25,000 catchable rainbow trout. As water temperatures warm throughout the spring and into early-summer, fishing for the assorted warmwater fish in the lake gets even better.

To sweeten the pot, docks and boat ramp access are abundant at the east and west ends of the lake and from the road that runs along the north side of the lake. Fernan Lake is a great place to cast spinners or soak bait under a bobber from the shoreline.

Lowland Lakes & Ponds

The Panhandle is home to plenty of lowland lakes, many of which offer great opportunities for folks looking to fish from the shoreline. Here are a few to consider:

- Post Falls Park Pond (Kootenai County)
- Spicer Pond (Benewah County)
- Shepherd Lake (Bonner County)
- Brush Lake (Boundary County)
- Kelso Lake (Bonner County)
- Round Lake (Bonner County)
- Hauser Lake (Kootenai County)
- Dawson Lake (Boundary County)

Each of these lakes has great access and offers anglers the chance to land a variety of warmwater fish species including largemouth bass, bluegill and yellow perch among others. In addition, with the exception of Shepherd and Hauser lakes, you might find a hatchery-stocked rainbow trout tugging at the end of your line. For any of these lowland lakes, you can never go wrong flinging spinners or simply soaking a worm under a bobber. To find maps to these lakes and more, use Idaho Fish and Game's Fishing Planner (idfg.idaho.gov/ifwis/fishingplanner).

Clearwater Region

Dworshak Reservoir

Looking for a big body of water in the heart of Clearwater country? Dworshak Reservoir in central Idaho along the North Fork of the Clearwater River offers anglers both picturesque mountain views and chances at hooking several species of fish, most notably smallmouth bass and kokanee.

Dworshak reservoir will provide excellent fishing opportunities once again in 2024. Kokanee anglers should see improved opportunities from the previous two years, and smallmouth bass anglers should continue to experience excellent bass fishing with trophy opportunities. Higher abundances of rainbow trout stocking will also continue to provide opportunities for both boat and shore anglers.

Check out the Dworshak Reservoir fishing forecast for the spring 2024 season at idfg.idaho.gov/article/dworshak-reservoir-2024-fisheries-forecast.

Mann Lake

Mann Lake – well, technically a reservoir – is 137-acres holding a number of game fish, including catfish, perch, bass, bluegill and you guessed it, rainbow trout. Fishing at Mann Lake is usually a good option early because it is a lower-elevation lake that hits prime temperatures quickly when things warm up.

Mann Lake is easily accessible and close to the city of Lewiston, making for the perfect getaway. The reservoir was recently stocked with 6,000-rainbow trout in April and is typically bolstered with more trout (and, on occasion, channel catfish) sporadically throughout late spring and summer. Mann Lake is also a popular crappie fishery and often boasts some nice ones this time of year.

Back by popular demand will include a stocking of banana trout to Mann Lake. For more details, check out the article at idfg.idaho.gov/article/banana-bonanza-fish-and-game-stock-banana-trout-mann-lake.

Middle Fork Clearwater and Lochsa Rivers

The Middle Fork of the Clearwater River is a great spot for springtime fishing. Whether you're fly fishing, spinning, or baitcasting, your chances of getting a bite here are good. There's a large variety of fish species including the chance to catch a bass, whitefish or trout. So grab your favorite fly fishing rod and reel and head out to the Middle Fork Clearwater River this season.

— Idaho Dept. of Fish & Game —

In addition, the Lochsa River is known for excellent trout fishing on an easily accessible river as it follows portions of Highway 12 through this scenic river corridor. It draws avid anglers and novices alike and is home to native trout species as well as mountain whitefish. Springtime conditions can produce high flows, yet when the water level drops, this can be an excellent place to find good spring fishing access.

Southwest Region

C.J. Strike Reservoir

This huge impoundment of the Snake and Bruneau rivers is no stranger to early season anglers, and for good reason. C.J. Strike Reservoir provides a variety of fishing and boating access sites and a grab bag of species to choose from. Crappie, perch, bass and trout are commonly caught in the spring. Fishing can be good year round, and unlike other southern Idaho reservoirs, this one isn't drained each summer for irrigation water, so it's fairly consistently full.

Strike is well suited for both boaters and shore anglers. There are numerous launch spots for boats, and most of the southern shoreline is vehicle accessible. The reservoir is suitable for most craft, but beware of wind if you're in a small craft. You may want to pick an area protected from the wind to fish. The upper Bruneau Arm and the Highway 51 bridge are good for smaller boats.

The shoreline has developed and undeveloped camping spots for weekend trips, but it's a popular area so expect competition for waterfront campsites.

Arrowrock Reservoir

For trout, Arrowrock Reservoir is at its best in the spring. Fish and Game stocked this reservoir with 9,000 trout in October, and many of those trout cruise the shorelines in early spring. Bank anglers using bait can catch limits of fish in the 16-inch range, and there's easy vehicle access to the shoreline along the reservoir.

Kokanee fishing has been good through the winter and into the spring with fish in the 14-16" in range. Remember kokanee are near the surface in early spring before the weather starts warming up. Idaho Fish and Game fisheries managers are expecting kokanee fishing to be good this year at both Arrowrock and Lucky Peak Reservoir.

Treasure Valley Ponds

There are almost too many to list, but safe to say it's easy to find one near all the communities in the Treasure Valley where trout are stocked, and there are often warmwater fish available. Here (idfg.idaho.gov/press/southwest-region-rainbow-trout-stocking-schedule-march-2) is a list of waters that were stocked in late March and early April.

To learn more about Treasure Valley Ponds, see a 2021 article highlighting many of the favorites at idfg.idaho.gov/press/spring-and-early-summer-are-prime-time-treasure-valley-ponds.

Lake Lowell

This lake is part of the Deer Flat National Wildlife Refuge and conveniently located south of Nampa

and Caldwell. Largemouth bass are the most popular sport fish, but it's catch-and-release only for bass until July 1, and then the bass limit is two with none between 12 and 16 inches. Those rules help sustain a good population of larger bass.

Anglers can also catch channel catfish, perch and panfish. Illegally stocked walleye have also been recently discovered, and anglers should kill and keep any walleye that they catch there. Fish and Game stocked tiger muskies in 2020, but none have been found during fish population surveys, so it's unknown if any survived.

There's good shoreline fishing available, and several parks around the lake, as well as boat launches. The southwest shoreline is mostly undeveloped, but there are numerous access points and unimproved boat launch spots.

Magic Valley Region

Salmon Falls Creek Reservoir

This large, high-desert reservoir is about 35 miles south of Twin Falls and is probably best known for its walleye and rainbow trout fishing. In April, Fish and Game is scheduled to stock 18,000 magnum rainbow trout (12 inches) in the reservoir.

The walleye population is strong as well, with the majority in the 13-15 inch range with limits of 6 per day (one only over 20 inches). Spring through early to mid-summer is when walleye catch rates are typically the best; however, the fall can be a great time to get out and catch them, too.

The area surrounding the reservoir is managed by the Bureau of Land Management, which provides camping and boating access facilities, such as the Lud Drexler Park and campground near the dam.

Magic Reservoir

This high-desert reservoir is fed by the waters of the Big Wood River and was constructed to provide irrigation for local agricultural operations. Reservoir water levels fluctuate throughout the summer. Magic has been hit hard by drought in recent years, but it still provides good fishing opportunities during spring.

The reservoir is stocked by Fish and Game and received 7,500 magnum rainbow trout in early April. Yellow perch fishing opportunities are still available, but that species has been severely impacted by several years of drought conditions. Fish and Game will continue working to rebuild that portion of the fishery by translocating additional yellow perch from other waters in southern Idaho into the reservoir.

Magic Reservoir can be accessed through several points, the easiest being Highway 75, turning onto East Magic Road. There are several launch and load ramps available to boaters.

Southeast Region

Community Fisheries

Sometimes you don't have to travel too far to get into some good fishing! Here are some fun community fisheries that offer convenient escapes close to home.

- **Edson Fichter Pond**
This 3-acre pond is located just minutes from downtown Pocatello. Nestled within the 40-acre Edson Fichter Nature Area, this pond features several docks and a paved trail for access around the pond. Your dog is welcome to be your fishing buddy—if leashed while at the pond and on the trails. However, if they need to cool off or would like to practice their retrieving skills, there is a "puppy pond" and an off-leash area built just for them on the same property.
- **Bannock Reservoir**
Located within the Portneuf Wellness Complex Park near the county fairgrounds in Pocatello, this community park offers trout fishing with many recreational amenities nearby. The 6-acre fishery is surrounded by playgrounds, soccer fields, basketball courts, running and biking trails, and an amphitheater for community events. Multiple docks provide fishing access around the reservoir.

Crowthers Reservoir
Tucked away on the northern edge of Malad City, this 23-acre reservoir provides a nice local fishing spot for the lone angler or the whole family. Rainbows are stocked in this fishery, but anglers have caught bluegill and largemouth bass, too.

McTucker Pond

Located on land managed by the Bureau of Reclamation, this pond was once a series of eight smaller water bodies but is now one connected water body occupying more than 8 acres.

Anglers can reel in rainbow trout, bluegill, sunfish, largemouth bass, bullhead, and channel catfish. Though the site is dominated by willows and cottonwood trees, there are plenty of openings along the banks to plant a camp chair and cast a line. This is a great fishery for the kids, too!

There is a nearby camping area and vault restrooms available. Visitors have been treated to sights of moose, deer, pheasants, beaver, and a variety of waterfowl species.

Snake River below American Falls Dam

Whether you are after bass, rainbows, cutties, or browns, this fishery has something for everyone. Who knows, you might even reel in some crappie or perch! Looking for a place to catch a sturgeon? You can do that along this stretch of river, too.

If waters are running high or you don't have a boat, don't worry—there are places to fish from the shore and from docks. But, keep in mind this section of river has some special rules.

- From the downstream side of the Gifford Springs boat fishing zone (western boundary) upstream to Eagle Rock, the bass limit is 2, any size.
- Trout limit is 6; only two may be cutthroat trout.
- From Eagle Rock upstream to American Falls Dam, trout limit is 0 this time of year (catch-and-release only).
- From the Saturday before Memorial Day, the trout limit is 2 until Oct. 15.

Upper Snake Region

Jim Moore Pond

Located a few miles south of Roberts, this hidden gem provides a non-stop fishing adventure for kids going after small perch. While the perch are small, the constant action and high catch rates really grasps a kid's attention and keeps them hooked, pardon the pun.

RELOADABLE BRASS 308 LC or FC, \$60/ 500; 223/ 556, \$55/ 1000; 45ACP LP, \$40/ 500; 9mm, \$35/ 1000; 38 SPL, \$40/ 500. All brass once fired from law enforcement range. Not public range pick up. Can ship USPS flat rate. More information: 509-366-0450

Smaller hooks or lures with a little chunk of bait attached are the ticket to reeling in perch at this pond. The bite is usually light, so try using a small bobber to detect hits. Sometimes the action is so hot that perch have been known to bite a bare hook off of the docks. In addition to yellow perch, catfish and rainbow trout can also be caught here. Restrooms are available, and the access roads are generally in good condition.

Gem Lake

Conveniently located just south of Idaho Falls, Gem Lake Recreation Area is a slow moving run of the river reservoir between the Upper and Lower Gem State Dams. Twelve thousand catchable-size rainbow trout are stocked in Gem Lake every year beginning in March. Long stretches of shoreline open to anglers exist from both the Gem Lake North boat launch and the Gem Lake Recreation Area on Township Road.

Rainbow and brown trout can grow to a decent size in these waters but will need a slow presentation to tempt a bite in the early spring. Try a slow retrieve jig or good sized worm to produce results.

Trail Creek Pond

Nestled at the base of the Teton mountain range, this often overlooked pond is the perfect stop for families headed on vacation to Jackson Hole or nearby Grand Teton Park. Restroom facilities, picnic tables, and beautiful mountain scenery make Trail Creek an opportune place to stretch your legs and catch a few rainbow trout before continuing on your journey or when camping nearby.

Stocking begins in early May, just in time for that summer vacation. Due to its high elevation and cooler water temperatures, this pond fishes well all through the summer heat when other lower elevation ponds start to warm up and fishing tends to slow. Kids are not likely to get bored here as catch rates are usually high and the fish tend to bite on bait or lures equally. Several open areas make this a good place for beginners to learn how to cast a fly or throw a spinner without too much risk of hanging up in the brush.

Salmon Region

Kids Creek Pond

Located in Salmon, Kids Creek Pond features a fishing dock, restrooms, and pavilion with picnic tables, making this a convenient fishing hole for those short on time. Kids Creek Pond is stocked with rainbow trout, and kids can even sometimes land a hatchery steelhead. In some years, hatchery steelhead or Chinook salmon returning to Pahasimeroi Hatchery are released in the pond for a rare fishing opportunity.

Hyde Creek Pond

Hyde Creek Pond is a small irrigation pond that provides good bank fishing for beginning anglers. This pond is on private property south of Salmon on the road to the Sunset Heights subdivision. Remember to be respectful and clean up any litter before you leave.

Hayden Creek Pond

Hayden Creek Pond is another popular family fishing hole with a picnic shelter, tables, grills, and restroom. The 1.7-acre pond is about 24 miles south of Salmon on Highway 28 and 3 miles south on Hayden Creek Road. Because spring water feeds the pond, thus creating good habitat, the fish that don't get caught right away continue to grow, giving anglers an opportunity to catch some larger trout as the season progresses.

Remember to keep it simple when fishing with kids. Using simple setups like worm and marshmallow combinations or PowerBait® near the bottom or below a bobber will usually do the trick.

Volunteer Hunter, Bowhunter And Trapper Education Instructors Honored At West-Central Montana Workshop

— Montana Fish, Wildlife & Parks —

MISSOULA — Montana Fish, Wildlife & Parks honored the service of its volunteer Hunter, Bowhunter, and Trapper education instructors at a workshop and awards luncheon this month in Missoula.

Montana's Hunter, Bowhunter and Trapper Education program is made possible by a group of dedicated volunteer instructors that collectively teach hundreds of classes each year around the state. In west-central Montana, over 100 volunteer instructors teach approximately 1,000 students annually, and some instructors have spent decades with the program.

Two instructors, Dave Tweet of Missoula and Gordon Pierson of Deer Lodge, were recognized for 40 years of service in the Hunter Education program. John Benda of Superior and Neil Maier of Frenchtown received 30 year service awards for the Bowhunter Education program, and Patricia Culver of Missoula was recognized for 30 years in the Hunter Education program.

Several instructors also received special awards for exemplary service. Marcus Bahm of Missoula received the Instructor of the Year Award. Merri Clapham of Stevensville received the Charlie Whitfield Award for excellence in bowhunter education and Brent Henrichs of Anaconda received the Joe Rice Award for excellence in hunter education.

The following instructors were also recognized for service milestones:

My Adoption Fee has been Sponsored! Hey there, I'm Wally. My friends here call me Mister Mellow. I'm a chilled out older guy who enjoys a slow walk and quiet times. I'm relaxed and dig meeting new people. Car rides are cool, there's nothing like feeling the wind in my fur. Although I'm very well-behaved, and really mellow, animals smaller than me are not my jam. Come on by if you want to hang out and meet me.

Hello, I'm Kavoot! I've got a heart full of love and a mind full of curiosity. I'm a sweet, smart, and slightly goofy guy who loves to explore. I'm also quite the cuddler, always ready to lean in for a warm hug or a gentle petting. My friendly nature makes me a great companion, and my curious mind keeps things interesting. I'm sure to make you laugh with my goofy antics and melt your heart with my sweetness. But most of all, I'm eager to find a great family I can share all the love and joy I have to offer with.

Second Chance Pets: Bruno and Red Ryder

Hello everybody! I'm Bruno, a purebred blue Great Dane. I am a 3 yr old neutered male and weighing in at a fit 120#. I get along with other dogs, but would be best with another female dog, if any. I'm a lover of attention, and would prefer to be your only child. I am TOTALLY an indoor dog, with a little outside playtime a day, I prefer to be inside snoozing and watching my humans. My foster mom says I'm a little "too much" to be happy in a home with human children. I can claim all the toys and the food bowls, because I am the King of dogs! But I do share when mom tells me I have to. I like to please and am pretty obedient. I am totally housebroken and crate trained. I came into Rescue with an eye condition called "cherry eye" it has been surgically repaired and I am on the mend! I am ready to get settled in to my forever home and be your couch companion!

Hello everybody, I Red Ryder! I'm am a 8 month old purebred Australian Cattle Dog with so much personality! I am fun loving and good with other animals. I have grown up on a farm with others dogs, cats, kids and all the farm animals. I'm even good with those fluffy squeaking birds the humans love to beat me to the little tasty nuggets of yellow, gooey goodness for! My nose is very good at finding where they hide them in the hay barn! I play with the other dogs here all day long. I sleep quietly in my crate at night. I am a typical ACD, and so I play rough and loud, this seems to offend some dogs, but I'm no slouch, I fight back if they bite me! I need a good, heavy exercise schedule, and a large outdoor space for burning off energy. Mom says I'm a "stick around" dog, so a property would be a great place for me.

Please email Idahocoondog@yahoo.com or log on to www.scpr.petfinder.com for more info and an adoption.

Look, Don't Touch: Despite Good Intentions, 'Rescuing' Baby Wildlife Can Lead To Bad Outcomes

— Idaho Dept. of Fish & Game —

Baby Canada goose (gosling) credit to Ben Bieri/2023

When it comes to wildlife babies, wildlife mothers know best.

It's officially spring, folks. And that means the peak of baby wildlife season is in full bloom. And it doesn't matter whether you're a backwoods hunter, hiker, bird watcher or sidewalk stroller: People are bound to see young wildlife when they venture outdoors during the spring and early summer. And there is a pretty good chance that they will see a baby animal—including goslings, ducklings, and fawns—that appears to be alone, with mom nowhere in sight.

While a well-intentioned human's first instinct might be to rescue these adorable, fuzzy, and seemingly helpless creatures, Idaho Fish and Game has a simple suggestion to people who discover baby animals that appear to be abandoned: **The best thing you can do for them is to leave them be.**

Every spring, Fish and Game receives calls from well-intentioned humans who claim to have "rescued" baby animals that they assume were lost, abandoned, or orphaned. While these folks typically mean well, the sad reality is they are often doing more damage than good when they intervene—and typically, mom was not far away to begin with.

Here's the hard truth. Animal parents will periodically leave their young for an extended period of time for a myriad of reasons, whether it's to search for food, to rest, or to divert attention from their vulnerable offspring, especially if they sense danger. When it comes to wildlife babies, *wildlife mothers* know best.

Mammals such as deer, elk, and pronghorn routinely leave their young in a secure location like a clump of sagebrush like in the photo below. It is normal for them to leave to feed and return later—sometimes several hours later—to quickly feed their young, then leave again. The young animals know

instinctively to remain still and wait for their parent to return.

Baby pronghorn antelope calf hidden in sagebrush by Jason Beck, 2002

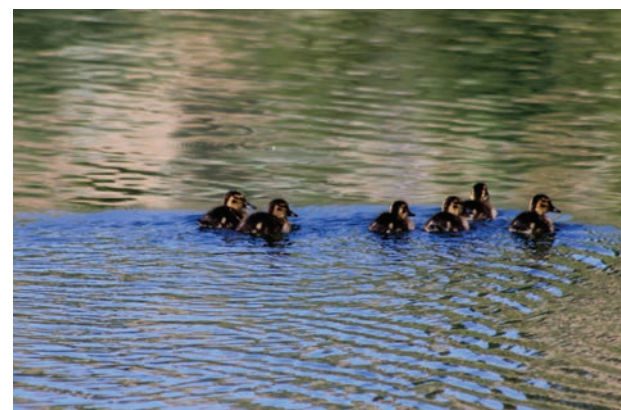

The same goes for flying critters. As baby birds mature, they often leave the nest in their efforts to hone their flying skills. Adult birds continue to feed their offspring until a point in time when their young can survive on their own...even if they fall out of the nest.

If you find a baby bird, duckling, gosling, deer fawn, or other critter, the best approach is to leave it undisturbed. Then if you wish, contact your nearest Fish and Game office. Fish and Game employees are happy to take calls about apparently orphaned or injured animals, answer your questions, and when it is absolutely necessary, retrieve animals.

In addition, do not plan to raise wild animals on your own. Young wild animals require special care and feeding that is beyond what the average household is prepared to manage. **Additionally, taking most species from the wild to raise in your possession is illegal in Idaho.**

In the spring when wildlife baby boom is at its peak, you may have the good fortune to observe a nest of birds or a litter of young mammals with no adult in sight. Enjoy the sight, but remember it is best to leave young wildlife alone.

Living in the midst of Idaho's vibrant and diverse wildlife populations can be one of the most rewarding aspects of life in our state. Be sure to check out our Living With Wildlife webpage at idfg.idaho.gov/living-wildlife to learn more. The page features all kinds of helpful tips on how to properly coexist when living among wildlife.

**Craving Coconut?
 Celebrate Spring with
 Irresistible Coconut
 Macaroons**

As spring blooms around us and Passover is upon us, it's time to savor the simple pleasures of the season with a classic treat: coconut macaroons.

Picture this: Moist, chewy coconut mingling with hints of vanilla, crowned with a delicate golden crust. Bonus points -- they're gluten-free!

Passover, a time of remembrance and renewal, calls for dishes that honor tradition. Enter the coconut macaroon, a timeless treat with a rich history. With its origins dating back to medieval Italy, this dessert has evolved into a beloved staple of Passover celebrations around the world.

What makes coconut macaroons perfect for Passover? These delectable delights are inherently kosher for the holiday, free from leavening agents and grains such as flour. Just check your vanilla extract, as some are made with grain alcohol.

Now, you might be wondering: How can something so delicious be budget-friendly? With just a handful of pantry staples -- coconut, sweetened condensed milk, egg whites and a splash of vanilla -- you can whip up a batch of these coconut macaroons in no time, all without breaking the bank.

There can be confusion between macaroons and macarons. While they share a similar name, they are distinct desserts with different characteristics.

Macaroons are dense, chewy coconut-based cookies, while

macarons are almond meringue sandwich cookies with a smooth exterior, and a wide range of colors and flavors, often filled with ganache, buttercream or jam. Both desserts offer unique and delicious experiences for dessert lovers. Today we're on team macaroon!

EASY COCONUT MACAROONS

Yield: 14-18 cookies

Total Time: 35-40 minutes

Ingredients:

14 ounces sweetened shredded coconut

14 ounces sweetened condensed milk

1 teaspoon vanilla extract

3 egg whites, at room temperature

1/4 teaspoon kosher salt

Optional: 1/2 cup chocolate chips for dipping

These coconut macaroons are about to become your new favorite treat!

Preheat the oven to 325 F. Line a baking sheet with parchment paper.

In a large bowl, combine the coconut, condensed milk and vanilla. In a separate bowl, whip the egg whites and salt until they form firm peaks using a stand mixer or hand mixer on high speed. To ensure a light and airy texture, carefully fold the whipped egg whites into the coconut mixture in three stages, using a gentle hand with a wooden spoon. This step is crucial for maintaining the

meringue's integrity and preventing deflation.

Drop mounds of batter onto your prepared sheet pans using either an ice cream scoop or two spoons. Shape them with moist hands to prevent sticking. There is no bad shape for a macaroon. If you're making nests, press your thumb or a wine cork into each cookie to make an indent.

Bake for 25 to 30 minutes, until golden brown. Cool and serve.

To dip and drizzle with chocolate, melt chips in the microwave. Dip the cookie as desired.

Sometimes the egg white can puddle around the cookie while baking. Simply cut around it and eat the delicious scraps when no one is looking.

For extra fun, add a half cup of finely chopped nuts. I'm partial to macadamias, but pecans and almonds are spectacular. Toast the coconut first for golden crunchy macaroons. Shape like bird's nests and fill the indent with jam, chocolate or Nutella.

To make larger or smaller macaroons, don't change the recipe but adjust the baking time to match (longer for big macaroons; shorter for small macaroons). I love to dip tiny ones completely in dark chocolate for little pop-in-your-mouth goodness. This recipe also makes a delectable pie crust.

Until next time, happy baking and may your days be filled with the sweet joys of spring!

FLASH GORDON

WHEN I WAS YOUNG, FRIGIA WAS A NATION ON THE BRINK OF COLLAPSE.

SO I CHARTED NEW LANDS. DISCOVERED NEW RICHES HIDDEN WITHIN THE SURFACE.

THIS IS MY HOME, AND I HAVE BLED FOR EVERY INCH OF IT.

I AM COUNT KORRO, LORD REGENT OF FRIGIA.

THE QUEEN COMES AND GOES AS SHE PLEASES, ADVENTURING IN THE COMPANY OF OUTSIDERS.

SHE DEMANDS TO KNOW WHY THE GIANTS HAVE BEEN RAIDING IN THE NORTH.

IN THE QUEEN'S ABSENCE, I AM THE LAW.

I TELL TRUE: THE BRUTES REFUSE TO SEE REASON.

SHE DISAPPROVES OF HOW I MANAGE "HER KINGDOM."

PRINCE RONAL THINKS ME JUST A HATEFUL OLD MAN.

THE DRAGONMAN THEY'VE BROUGHT HERE WANTS MY BLOOD.

THE ALIEN FLASH GORDON REGARDS ME WITH PITY.

IN PRIVATE, I TELL HIM I TOO WAS ONCE BELOVED.

BEWARE, HERO.

THE LOVE OF THE PEOPLE IS FICKLE.
