## The Bruce Festival Returns to Boundary Fairgrounds for 3rd Year

*Festival now July 18th-19th*

— Monica Thomas —

The Bruce Festival, which hosted its first year in the summer of 2024 in honor of the 750th birthday of Robert the Bruce (aka King Robert I of Scotland), is back for its third year, and this time, they're adding actual Highland Games and "Primitive Games" competitions!

With so much popularity the previous two years, the 3rd Annual Bruce Festival will encompass two full days, giving you plenty of time to grab your tickets and make a day, or a whole weekend, of it with the entire family!

According to John Miller, creator of the event and descendant of Robert the Bruce, "The Bruce Festival is a unique opportunity for our community to come together and celebrate the rich cultural heritage of Scotland and Ireland through the lens of the life and legacy of Robert the Bruce. Attendees can expect to be transported to a world of Scottish and Irish traditions."

This family-friendly event will feature tons of cultural vendor booths and entertainment, including authentic food and drink, rich historical content, bagpipers, Scottish dancing, historical displays, sword fighting, blacksmithing, story telling by a local historian, music and bards, and so much more!

Festival days will run from 9am-7pm Saturday-Sunday, July 18th-19th, and will be located at Boundary County Fairgrounds, 6567 Recreation Park Road in Bonners Ferry.

Dressing up is always encouraged, but never required. All information can be found at [www.thebrucefestival.com](http://www.thebrucefestival.com).

JULY 4TH AGENDA IS TO promote America's 250th Independence Day away from God, into anti-Christian goals, which is what Christian Nationalism is all about. It's ironic that the 4th of July falls on God's 7th Day Sabbath (Saturday), which God set up as the very sign of loyalty to Himself (Ezekiel 20:12, 20), the only day God blessed and made holy (Genesis 2:1-3). God allowed the founding of America, to escape anti-Christian practices that were going on in Europe under unbiblical religious leadership of the Old World. America was founded by people who wanted to have religious freedom, but nowadays that freedom is to be taken away, by so-called Christian Nationalism, which will force you to worship according to how the government dictates, as church attendance on Sunday will become mandatory, whether you believe in God or not! The very thing that caused the Pilgrims to leave Europe in the first place is happening again (on July 5th, Sunday), history repeating itself! Christian Nationalism is against the Bible and God, and you will lose your God-given freedoms as a result! Tim, 208-217-8942 text

**I ADMIT IT! SATAN IS A** genius strategist. Let me give you two examples of ingenious thinking on his part. When I first became a new Christian, I watched a TV show featuring a preacher who had a church ministry on Sunday, who always quoted Psalms 118:28, which goes like this, "This is the day the Lord has made, we will rejoice and be glad in it." Which is a true statement. The catch is that only on Sunday, in church, did he make that statement; no other time did you ever hear that Bible verse. Now, the human mind would naturally put those two statements together, giving the impression that there is something special about being in a church service on Sunday. Talk about having a brainwashing effect! Second case: Nowadays public schools across America display the 10 Commandments, but in abbreviated form, as in not complete wording, details left out. For example, the 4th Commandment (Exodus 20:8-11), that kids read, "Remember the Sabbath Day, to keep it holy." The natural thing a kid would ask is, "What day is the Sabbath Day that I'm supposed to keep holy?" Satan has educated the average person to answer, Sunday is the Sabbath Day, knowing that the average person doesn't read the Bible to be able to answer the question with the truth, and so Satan leads people into the lies he invented. And it is written, "My people are destroyed for lack of knowledge" (Hosea 4:6), which is exactly Satan's agenda. Tim, 208-217-8942 text

## Northwoods Performing Arts Presents: A Comedy Radio Variety Show

— Circle Moon Theater —

NEWPORT, WA — Step back in time for an unforgettable evening of laughter, music, and old-fashioned entertainment as Northwoods Performing Arts presents The Comedy Radio Variety Show directed by Robyn Adams-Young. Whether you grew up listening to old-time radio or simply enjoy clever comedy and live entertainment, The Comedy Radio Variety Show offers something for everyone.

Inspired by the warmth of A Prairie Home Companion and the golden age of live radio broadcasts, this original production combines hilarious comedy sketches, toe-tapping music, audience interaction, outrageous commercials, sound effects, and memorable characters into a fast-paced evening the entire family will enjoy.

Broadcast live from the fictional studios of KLAJ 75.3, audiences will meet a delightfully eccentric cast of performers as the evening unfolds with everything from soap operas and cowboy poetry to classic radio-style commercials, unforgettable songs, mysterious missing goats, and plenty of laughter along the way.

Performances are Thursday-Saturday, July 16th-18th.

Doors open at 5:30pm. Dinner is served at 6:30pm with a 7:30pm curtain.

You can find more details, a full menu line-up, and tickets for dinner and show-only online at NorthwoodsPerformingArts.com, in person at Seeber's Pharmacy in Newport, WA, or you may call 208-448-1294.

Gather your family, invite your friends, and join us for an evening filled with music, laughter, and the timeless charm of live radio. You'll leave smiling... and perhaps wondering whatever became of Gerald the goat.

1. Which piano duo had a hit instrumental version of the theme song for the film "Exodus"?
2. Who was the first to release "The Night Has a Thousand Eyes"?
3. Which group had a hit with "Cry Like a Baby"?
4. Who released "Paradise City"?
5. Name the song that contains this lyric: "You'd hear the patter of his feet as he came toddling down the street, His smile would cheer a lonely heart, you see."

*Answers*

1. Ferrante and Teicher, in 1961. They also had hit versions of theme songs from "The Apartment" and "Midnight Cowboy."  
 2. Bobby Vee, in 1962. The hit was on the charts for 14 weeks before being covered by several others, including the Carpenters and Gary Lewis & the Playboys.  
 3. The Box Tops, in 1968. Originally calling themselves The Devils, they had to change their name because of another group called The Devils.  
 4. Guns N' Roses, in 1989.  
 5. "The Old Lamp Lighter," by the Browns, in 1960. Originally written in 1946 and released by Sammy Kaye, it was the Browns' version that was best known. The lamp lighter was the man who used to light all the street lamps in a town and then extinguish them at dawn.

# PCBs Poly Chloriated Biphenyls

FOR SEWER USERS

THE WASTEWATER PLANTS DO NOT CREATE PCB's. PCB's COME FROM HOMES AND BUSINESSES. WASTEWATER PLANTS REMOVE PCB's WHILE TREATING WASTEWATER. BUT WE NEED YOUR HELP.

## THE PCB CHALLENGE

PCBs CAN BE FOUND IN EVERYDAY PRODUCTS

### How Do PCBs Enter the Wastewater System?

- Atmospheric deposition → RESIDUE RINSED OFF IN SHOWERS AND THROUGH HUMAN WASTE
- Consumer products used in our homes → DYES WASHED FROM CLOTHING AND FIRE RETARDANT MATERIALS
- Stormwater runoff → PIGMENTS FROM RECYCLED NEWSPRINT

**DID YOU KNOW?**  
YELLOW DYES HAVE HIGHER CONCENTRATIONS OF PCB'S!

### The "PCB Regulatory Paradox".

While EPA allows PCB levels up to 50 ppm in products, Federal PCB water quality regulations allow only 0.00000064 ppm for any wastewater discharge

PCB Regulatory Relationships (in parts-per-million)	
Federal Allowance in Products	50 ppm
Federal Allowance in Drinking Water	0.0005 ppm
ID State Human Health Water Quality Criteria (allowable in lakes and streams)	0.00000019 ppm
Federal Human Health Water Quality Criteria (allowable in lakes and streams)	0.00000064 ppm
Spokane Tribe Water Quality Standard (allowable in lakes and streams)	0.00000007 ppm

THIS IS OFTEN REFERRED TO AS "PCB-FREE".

IMAGINE...

- 1 part-per-million =
- 1 inch in 16 miles
- 1 minute in two years
- 1 ounce in 32 tons
- \$0.01 in \$10,000

## What can I do?

THE PCB SOURCE INFORMATION IS BEING DISCOVERED ALL THE TIME, SO STAY TUNED.

Be a consumer advocate for plain packaging that uses less ink since a lot of common packaging contains PCBs due to inks and dyes.

Don't rinse chemicals, solvents, oil, paints, etc. down your home drains.

## Pets of the Week: Gizmo and Lovey

— Priest River Animal Rescue —

Hi, I'm Gizmo — the Babe — and I come as a package deal with my mom, Lovey! I'm a sleek 3-year-old black Domestic Long-hair who's spayed, litter box trained, and ready to bring double the love to your home. I'm active and friendly, with a gentle spirit and a real talent for mousing, plus I absolutely adore being petted. My adoption fee is sponsored to find a home where we can stay together — older or considerate kids only, please — so you're not just adopting one cat, you're gaining a dynamic duo!

I'm Lovey, also known as Ma, and I'm a striking black tuxedo girl with a heart full of love! At 4 years old, I'm spayed, litter box trained, and ready for an indoor home where I can be my authentic self — I'm affectionate and cuddly on my own terms, but I'd prefer if you admired me up close rather than hold me. I'm bonded with my daughter, Gizmo, and we're a dynamic duo who'd love to find a forever home together with considerate older kids or a calm adult household. My adoption fee is sponsored, and I promise to fill your home with gentle companionship and plenty of purrs.

Meet Heidi! She is a 3 year old great Pyrenees/Lab mix. She is good with most people, but needs to warm up first to get loving and playful. She loves playing with her sister Clementine. They were brought in together, but can be adopted separately. She is a very well behaved doggo, but can get a bit excited and pull on her leash when on a walk. She's good with most other dogs, but not small dogs or cats. She tends to see the smaller animals as toys and can get too rough. She'd be great for a household that has other dogs her size and someone in need of a sweet and loyal companion.

Meet Mystique! This sweet girl is about 8 or 9 years old. She may be a senior, but she is the cutest fluffball. She's not very fond of other animals, but she loves to cuddle with people. She may need to warm up first, but once she knows you, good luck keeping her off your lap. She'll do great in a single pet household with someone who loves to snuggle.

All adoptions include vaccinations, worming, flea and ear mite treatment, spay/neuter and any medical treatment needed while staying with us, and they also come with a full check up from a veterinarian.

Hope's Haven Animal Shelter (Benewah Humane Society) is open Monday-Saturday, noon-4pm. Come into Hope's Haven to visit and view our animals or check them out first on our website. Give us a call for more information today!

## Pets of the Week: Bobber and Josie

— Second Chance Pet Rescue —

Hello everyone! My name is Bobber and snuggles and chew toys are my game! I'm a 1-year-old neutered male Boston Terrier/Pug mix just about 50/50! According to the DNA test my former owner did on me. I was surrendered due to her busy work schedule and not having enough time to spend with me. I would do best in a home without small children as I am a small child myself and require quite a bit of attention, exercise and time. I get along great with all other dogs and I don't chase cats that don't run! I'm fine with chickens, horses and kind consider it well. Supervised children. I weigh 16 lb.

Hello North Idaho! My name is Josie and I am a spayed female Border Collie /Cattle Dog mix as determined by the best, educated and experienced guest of my foster mom! I am aged at right around 7 years old. I am 38 lb and I have a half tail that I love to wag like a flag. I am housebroken and extremely reliably obedience trained. I have excellent off-leash recall and I prefer to be with you everywhere you go. I ride in the car great and I get along with other dogs as long as they don't get too rough with me. I am fine with cats, chickens, goats, horses, all the farm stuff! I'm a very kind, quiet, obedient girl looking for a mature couple to spend the rest of my life with.

Please email [Idahocoondog@yahoo.com](mailto:Idahocoondog@yahoo.com) or search for Second Chance Pet Rescue, Hayden ID on [www.petfinder.com](http://www.petfinder.com) for more info and an adoption application.

## Pets of the Week: Duke and Kitten

— Companions Animal Center —

Duke is a three-year-old handsome lad who had a great time meeting all kinds of people and other dogs at the July 4th parade. Duke is very affectionate, rides well in a car, walks great on a leash, and has been waiting for someone to open their heart and home to a 62-pound cutie!

Looking to adopt a kitten? This little guy is just one of dozens of kittens available for adoption. Stop by and take your pick. So many to choose from. Don't see the exact one you're looking for? We have dozens more in foster care that will be coming in and will be available for adoption over the next few months.

Companions Animal Center is located at 10275 N Atlas Rd, Hayden, ID. We are open to the public Tuesday-Saturday noon-6pm, Sunday noon-4pm, and closed Mondays. Visit [www.companionsanimalcenter.org](http://www.companionsanimalcenter.org) or call 208-772-4019 for more information.

## Pets of the Week: Luke and Spike

— Better Together Animal Alliance —

Luke is a handsome 4-year-old cat weighing about 9 pounds. He may be a little shy when meeting new people, but once he feels comfortable, his charming personality shines through and he'll happily chat with you all day long! Luke is an excellent hunter with strong instincts and loves having space to explore. Having lived both indoors and outdoors, he enjoys the best of both worlds and would thrive in a home where he has safe opportunities to roam, investigate, and satisfy his adventurous side. Luke is looking for a home with plenty of room to stretch his legs and be himself. If you're patient enough to let him warm up at his own pace, you'll be rewarded with a loyal companion who has plenty to say and lots of love to give.

Meet Spike! Spike may be a senior guy, but he still has a playful spirit and plenty of love to give. This 9-year-old mixed breed weighs about 56 pounds and is full of personality. He loves giving slobbery kisses and will happily hop around to show just how excited he is to meet new people! He has shown compatibility with other dogs when a proper introduction is done. He's looking for someone who can provide him with the exercise, companionship, and affection he needs to be a wonderful companion. Come by and meet this sweet boy today!

Animal Care Center: 208-265-7297, 870 Kootenai Cut-off Road, Ponderay, ID, 83852. Hours: Monday-Saturday noon-4:30pm. Thrift Store: 208-263-0706, 9am-6pm daily, donations: 8am to 4:30pm daily.

## Pets of the Week: Jasper and Roamey

— Luke's Legacy —

Jasper is a 3 year old German Shepherd x Lab mix. He was an owner surrender due to a bad domestic violence situation. I've had him a few weeks now and he's coming out of his shell and displaying a playful and sweet demeanor. He has learned how to play well with other dogs and successfully he regularly plays with.

He is house trained and does great in the car. The leash could use some work as he wasn't on one much. Jasper was recently neutered and brought current on his vaccinations. The only dog I've noticed him challenging is one that is still intact and hasn't went to the vet yet. This sweet boy is eager to please and ready to be a part of a loving family with someone who will love and care for him. No more domestic situations for this guy. He's had his fill of those.

Roamey is a great girl who was originally found alongside the road at a very young age, much too young to leave her mother and dumped. She was picked up by a nice family who tried to find her a home but never could. Roamey is a Norwegian Elkhound mix and is now 3-1/2. Her boy moved out and mom couldn't keep her. Roamey knows the

tricks of sit, paw, lay down and say please. Her favorite toys are bones, squeaky toys and footballs. She loves playing chase. Roamey is scared of the vacuum and will bark at it. She sleeps quietly on her dog bed next to yours and is fully house trained. She's great on a leash and riding in a car. Roamey has been nothing short of excellent here in the rescue and has went from being an only dog to having lots of friends whom she enjoys. She can join a pack or be your only dog and be just fine doing it. She's a wonderful girl just here waiting for her people. She is spayed, current on her Da2PP and microchipped. She will need an updated rabies vaccination.

Call or text Erin for an application 208-755-7127 or email [emwllrd@gmail.com](mailto:emwllrd@gmail.com) with a letter of introduction. You can also visit [LukesLegacy.care](http://LukesLegacy.care) or fill out an application at [forms.gle/8tFzSsi36ECEYfDR9](http://forms.gle/8tFzSsi36ECEYfDR9)

## Collector Car Appreciation Day Second Friday in July

— National Day Calendar —

Each year in on the second Friday in July we celebrate Collector Car Appreciation Day. This day recognizes the vital role automotive restoration and collection plays in American society.

Americans have had a fascination with automobiles since the first U.S. horseless carriage was demonstrated in 1893 by the Duryea Motor Wagon Company. The romance of the motor took us from rough country roads to iconic highways and byways. We were also able to stretch our legs and cross the country more independently than ever before. The urge to go faster, fleetier and finer were inspirations for design and ingenuity. Additionally, assembly lines made cars more affordable.

The appeal of the automobile influenced the American sense of adventure. Nostalgia, perseverance, and exploration are the topics of the day. Surprisingly, the automobile and the horse shared the road for a time causing much confusion. Stop signs and signal lights were non-existent. Rules of the road were not yet established. Still, motor companies began to tailor their designs to a public demanding a particular style.

Today, the collectors of these bygone eras keep

history and memories alive. They restore and maintain old metal, engines, and blinkers. Crank, push-button, or throttle starters once rusting in a barn rev to life. Specialists take great care to find the right part or color, and skilled artists put their hard labor to work restoring a single collector car. They spend hours on end painting, repairing, rebuilding, and welding to recreate the final result of a pristine collector car.

This day recognizes those individuals dedicated to preserving a piece of American history. We associate each era with a certain car. Whether we ride in a Prohibition-era Cadillac Sedan, a 1950s era muscle car, or in our grandfather's pickup truck, they take us back.

### HOW TO OBSERVE CAR COLLECTOR APPRECIATION DAY

Give a shout out to a dedicated restorer you know. Recognize their talent and knowledge. Attend a collector car event or show. Share your tips and videos. While you're celebrating, take a ride in your classic car. Post photos of your collector car on social media using #CollectorCarAppreciationDay.

### CAR COLLECTOR APPRECIATION DAY HISTORY

Since 2009, SEMA Action Network (SAN) has sponsored Collector Car Appreciation Day. Per the request of The SEMA Action Network (SAN), each year the U.S. Senate has passed a Resolution helping to launch the day. For more information visit [www.semasan.com](http://www.semasan.com).

## Protect Skin from the Sun: 3 simple tips for summer skin care

— Family Features —

Taking good care of your skin all year long is essential, but even more so in the summer when the power of the sun is at its strongest. Healthy skin doesn't require fancy moisturizers or expensive skin care products. You just need to adopt a few healthy habits.

For example, keeping your skin healthy and glowing starts from the inside out by eating and drinking healthy foods and beverages that nourish your body's largest organ and promote healthy skin cells. Additionally, studies show certain foods, such as fresh, juicy grapes, may help protect healthy skin even when exposed to UV light, which is known to damage skin cells.

A study published in the journal "Antioxidants," in which people consumed 2 1/4 cups of grapes every day for two weeks, showed increased resistance to sunburn and reduced markers of UV damage at the cellular level. This study reinforced previous and similar findings published in the "Journal of the American Academy of Dermatology." Grapes are also a hydrating food with 82% water content; hydration is essential to healthy skin.

Along with snacking on fresh, delicious California grapes, consider these everyday ways you can keep your skin safe from the sun's rays.

### Seek Shade

Most experts recommend avoiding the sun at the height of the day, between 10 a.m. and 2 p.m., when its rays are at full strength. That doesn't mean you can't be outside – just seek shade as often as possible while enjoying the warm summer air.

### Prioritize Hydration

Drinking water and staying hydrated is important year-round, but especially when it's hot and you're more likely to lose water content through sweat. Keep your body full of moisture with simple and delicious Grape-Infused Waters. For a zesty kick, try Grape, Ginger and Lime that combines the sweetness of grapes with the zing of ginger and lime, or Grape, Lemon and Mint, offering a bright and invigorating blend of citrus and mint. Enter your Zen state with a mellow, spa-like sip from Grape, Cucumber and Mint.

For a cool, hydrating snack, try freezing grapes. Simply rinse, pat dry, remove from the stems and freeze for 2 hours in a single layer on a sheet pan. You can even enjoy them as flavorful ice cube replacements in these easy-to-prepare, flavorful beverages.

### Layer Up

While you're enjoying the sunshine, layer up with a generous application of 30 SPF or higher sunscreen every 1-2 hours. Wear lightweight, long-sleeve shirts; wide-brimmed hats; sunglasses; and other protective clothing to reduce sun exposure, which can lead to wrinkles, age spots and other

health problems, including an increased risk of skin cancer.

Visit GrapesFromCalifornia.com for more delicious recipes and information on grapes and health.

## Georgia Angler Reels in New Idaho Catch-and-Release Record Brown Trout

— Idaho Dept. of Fish & Game —

Idaho's South Fork Snake River is no stranger when it comes to productive brown trout fishing. This trophy river — one of Idaho's most legendary — is known to regularly hold brownies, known for their yellowish bodies and long, angular faces.

Although not native to Idaho's waters, brown trout offer some of the most exciting fishing opportunities you can get from a fly rig.

On May 30, Georgia angler Caroline Langdale got to experience this firsthand.

"I never dreamed when I started my day of fishing with Ed Emory of South Fork Lodge that God was going to bless me with a fish of a lifetime," Langdale said.

Fish of a lifetime might be an understatement once you see the photo for yourself.

During a multiday fishing trip along the South Fork, Caroline was drifting her rubber legs fly down a massive hole when she noticed her indicator dip below the surface. At first, she thought she might've snagged a root ball along the bottom. But after a nearly 10-minute fight with what she knew must be a lunker of a trout, her wildest dreams soon meandered its way to the surface.

There on the end of her line was one bruiser of a brown trout, a 30.5-inch monster she hoisted proudly from the boat. With the help of her guide, Caroline stretched the brown trout along a tape measure and instantly was told she might have a shot at the state record.

Langdale submitted the measurements and photos to Fish and Game's Sportfish Coordinator, who verified the brown's size and place in the record books.

"What an amazing experience that I will always be thankful for," said Caroline Langdale.

### Huge browns are rare

While brown trout over 30 inches in the South Fork Snake River are exceptionally rare, they do exist.

In fact, Fish and Game fisheries surveys captured a 33-inch brown in 2016 and another 33-inch fish as recently as 2024. This is mainly based on electrofishing, however.

"Really big fish can be difficult to capture with our typical survey gear, so there's likely more of them out there since the data is a little biased by size," said Martin Koenig, Fish and Game's Sportfishing Program Coordinator.

According to fish survey data on the South Fork Snake River, biologists have recorded measurements of over 57,600 brown trout dating back all the way to 1986.

In all those years, surveys have documented only four brown trout over 30 inches. In other words, of all the brown trout captured during surveys, only 0.007% ever exceeded 30 inches — that we know of.

"Even brown trout over 25 inches are rare on the South Fork, with only 30 brown trout over 25 inches ever recorded in electrofishing surveys," Koenig said.

Again, that's probably because the biggest trout live in places that are hard to reach with electrofishing, so there's probably more of them out than the survey data suggests. Even so, this is an exceptionally rare fish for this river.

### More About Idaho's State Record Fish

Thinking about chasing a state record fish? Check out the state record fish page for more information.

All applicants must submit a complete Record Fish Application Form, with accompanying photographs. This form can be completed online or downloaded from our website here.

- Fish must be released alive. (See tips on safely releasing fish in the Fishing Rules booklet.)
- Steelhead, ocean-run salmon, bull trout, and white sturgeon submitted for records must be measured and photographed in the water.
- Catch-and-release records are based only on the total length (snout to tip of tail) for fish released alive.
- Fish must be photographed directly next to a ruler/tape or an object of known verifiable length.
- New catch-and-release white sturgeon records must be broken by a minimum of 2 inches.
- Catch-and-release records for all other species must be broken by a minimum of ½ inch.
- Fish within ¼ inch of the current record will be recognized as a tied record.
- All applications must be submitted within 30 days of the catch date.

### How to Apply for Certified Weight Records

Records will be awarded for either fish caught by angling (rod/reel) or by archery/spearfish for legal unprotected nongame species. Archery/spear fishing records will be listed separately and identified by the angler on the application form. No records will be awarded for fish caught during salvage seasons or at private pay-to-fish facilities.

NOTE: Idaho Fish and Game now provides certified scales for weighing potential records at the Panhandle, Clearwater, Nampa, Headquarters (Boise), Jerome, and Pocatello regional offices.

problem, which I've seen take a terrible toll on a person's social and financial life.

Finally, I was supervising a medical resident yesterday when we discussed the effect of these drugs on heart health. The evidence is also strong that these medications decrease the risk of heart disease -- both in people with and without diabetes. Multiple mechanisms have been proposed for this heart protection, but it isn't exactly clear which ones are the most important.

For those of us who lived through the approval of previous weight-loss drugs, which were later found to cause heart damage, the news about heart protection is welcome. Still, we've been using these drugs for less than 10 years, and it's wise to use them only when there's a clear benefit in doing so.

**DEAR DR. ROACH: What are the long-term health risks of being exposed to fumes, such as in hair or nail salons or automobile repair shops? Can these fumes affect your internal organs? -- C.R.C.**

**ANSWER:** The primary organ affected by fumes during occupational exposure are the lungs. Chest tightness, wheezing and allergic symptoms are common after an exposure to benzene, formaldehyde, toluene, and other substances that are commonly used in hair and nail salons -- often at levels that exceed the safe thresholds. Half of technicians in one study were affected.

Auto body and paint workers are also exposed to the same (or very similar) chemicals, and they can develop asthma at a rate that is 80 times higher than the general population. In addition to effects on the lungs, occupational exposure to these chemicals increases the risk of some cancers, especially leukemia (benzene), sinus and nasal cancer (formaldehyde), and nervous system cancers (benzene).

Although personal protection equipment can reduce these exposures, many workers don't use them regularly. Improved ventilation and less-toxic chemicals are needed to protect workers.

*Dr. Roach regrets that he is unable to answer individual questions, but will incorporate them in the column whenever possible. Readers may email questions to [ToYourGoodHealth@med.cornell.edu](mailto:ToYourGoodHealth@med.cornell.edu).*

## Glp-1 Agonists Might Help Obese Man With Drinking Habit

**DEAR DR. ROACH: My brother-in-law is a lovely man, but for years, he's suffered from obesity. He also gambles and drinks alcohol too much. I hesitate to get too involved, but I recently read that the new weight-loss drugs based on GLP-1 agonists are also helpful in reducing alcohol and gambling addictions. This sounds too good to be true. Is it? -- D.N.A.**

**ANSWER:** The evidence is very strong that GLP-1 agonists like tirzepatide (Zepbound) and semaglutide (Wegovy) help people lose weight. About 80% to 90% of people will experience a weight loss of more than 5% of their initial body weight. For people who are severely obese, people with obesity and metabolic complications (diabetes, prediabetes or metabolic syndrome), and people with other weight-related complications (sleep apnea and arthritis), the benefits of these medicines probably outweigh the risks just for the weight loss.

The evidence for GLP-1 agonists helping with alcohol use disorder is now quite strong, with studies showing significant reductions in alcohol-related hospitalizations and a reduction in problem drinking. The evidence for gambling disorders is preliminary based on the understanding of how these drugs work in the brain. There aren't any strong clinical data at this time supporting the use of GLP-1 agonists for a gambling disorder.

Still, given the clear benefits in weight reduction and problem drinking, these drugs might be a good choice for your brother-in-law -- if both he and his physician agree. It might also help with his gambling

### Don't Pour This Secret Ingredient Down the Drain

Summer grilling has a funny way of convincing sensible people to overspend. Fancy marinades, premium cuts of meat and specialty sauces leap into the shopping cart. One of my favorite summer dinners starts with a can of pineapple.

Restaurant teriyaki tastes complicated, but it isn't. Once you know the formula, you're just a few pantry ingredients away from a sweet, savory glaze made right at home.

The secret ingredient in this recipe isn't hiding in an expensive specialty aisle. It's the juice you were going to pour down the drain after opening the can. Around here, pineapple juice isn't waste. It's tomorrow's teriyaki. My kitchen has a "Don't pour flavor down the drain" policy.

Buy whatever protein is on sale.

I made mine with pork chops because they were marked down and that's the kind of gal I am. Once cubed and marinated, economical cuts become wonderfully tender, so you can skip the pricier pork tenderloin. If chicken is the better bargain, boneless breasts or thighs work just as well.

### SWEET & SAVORY PINEAPPLE TERIYAKI PORK SKEWERS

Yield: 6 servings

Total Time: 8 hrs., 35 mins.

1 recipe Pineapple Teriyaki Marinade (recipe follows)

1 (20-ounce) can pineapple chunks in juice, drained (reserve the juice for the marinade)

2 pounds pork (or chicken), cut

into 1 1/2-inch cubes

2 to 3 small zucchini, cut into 1 1/2-inch slices

1/2 pound fresh mushrooms, quartered

1 large sweet red pepper, cut into 1 1/2-inch pieces

1 small red onion, cut into 1 1/2-inch pieces

12 (10-inch) skewers (soak bamboo skewers for 30 minutes before using)

Cooked rice, for serving

Prepare the Pineapple Teriyaki Marinade as directed below, reserving 3/4 cup before adding the remainder to the pork.

Place the pork in a zip-top bag or shallow dish and pour the remaining marinade over it. Refrigerate for at least 8 hours or overnight.

When ready to cook, thread the marinated pork onto skewers, alternating with pineapple chunks, zucchini, mushrooms, bell pepper and onion.

Meanwhile, prepare the reserved marinade as a basting sauce according to the directions below.

Grill over medium-high heat for 12 to 15 minutes, or oven broil on LOW, turning occasionally, until the pork reaches an internal temperature of 145 F. Brush the skewers several times with the warm basting sauce during the last few minutes of cooking.

Serve any remaining sauce alongside the skewers.

Tender pork, sweet pineapple and colorful vegetables are brushed with a homemade teriyaki glaze.

### Pineapple Teriyaki Marinade

Yield: 1.5 cups

Total Time: 15 mins.

1/2 cup pineapple juice (reserved from one 20-ounce can of pineapple chunks)

1/2 cup low-sodium soy sauce

1/4 cup brown sugar

2 tablespoons rice vinegar

1 tablespoon sesame oil (or other neutral oil)

2 cloves garlic, minced

1 tablespoon grated fresh ginger

1/4 teaspoon black pepper

Pinch red pepper flakes (optional)

In a small saucepan over medium heat, whisk together all of the ingredients until the sugar dissolves. Remove from heat and reserve 3/4 cup of the mixture for the basting sauce.

Pour the remaining marinade over the pork and refrigerate for 8 to 24 hours.

### To Make the Basting Sauce

Combine the reserved 3/4 cup marinade with:

1/2 cup water

1 tablespoon cornstarch

Stir together the water and cornstarch. Bring marinade to a gentle simmer over medium heat, add the cornstarch mixture, whisking constantly, until the sauce thickens and becomes glossy. Use to baste the skewers during the final minutes of grilling and serve any remaining sauce at the table.

## Glass Shades

The invention of the electric light bulb didn't just introduce an improved, more convenient, safer light source. It gave designers new inspiration. As the use of electric lights spread during the late 19th to early 20th centuries, lamps with colorful opaque glass shades became popular. They made beautiful decorations, whether on or off, and the intense electric light shining through the glass often gave the design a whole new look.

Tiffany, Handel, and Pairpoint made the most famous lamps of the time. They have stunning, high-quality shades made with complex techniques, and the bases are usually bronze and often have intricate designs or figural shapes. Unsurprisingly, they can sell for tens or hundreds of thousands of dollars today -- a windfall if you've inherited one but a bit of an extravagant purchase for most collectors.

Similar lamps made by the many other companies active at the time may not quite reach those heights, but especially striking and well-made examples can still sell for impressive prices, even without a known maker. Even though its maker was not identified, this lamp sold for \$3,000 at Woody Auction. Its light blue, orange, and caramel-colored glass panels make an eye-catching combination, especially with the ornate scrolls, wreaths, and flowers on its metal frame. A lighted base adds to its appeal.

**Q:** Our handpainted Nippon chocolate set, including a pitcher and five cups and saucers, has been in our family for over 60 years. It is decorated with roses and gold and has a blue mark on the base with a leaf. We are wondering what it is worth so that we can list it correctly in our estate.

**A:** The leaf mark was used by the Morimura Bros., who opened their trading company in 1876. In 1904, they founded the company that was later known as Noritake, one of the most famous names in 20th-century Japanese ceramics. Morimura and Noritake used the maple leaf mark with the words "Nippon" and "Hand Painted" starting in 1891. The mark could be blue, green, or magenta. Nippon chocolate sets the size of yours, with the blue leaf mark and similar decorations, have sold for about \$150 to \$300 at recent auctions.

For a more precise estimate, you may want to contact a collector's club, like the International Nippon

*Colorful opaque glass was a popular choice for decorative lampshades in the late 19th to early 20th centuries.*

Collector's Club ([nipponcollectorsclub.com](http://nipponcollectorsclub.com)), or an auction house or dealer that sells similar ceramics. To list the value of your estate, you may need to get a professional appraisal; however, they tend to be very expensive and may not be necessary if the value of the item is under a certain amount.

TIP: When changing an antique, like rewiring a lamp or reupholstering a chair seat, keep the old pieces and parts you remove. When you sell your antique, the new owner will pay more if the old parts are part of the history.

## Simple Summer Snacks: Sweet, easy recipes to solve warm-weather hunger

— Family Features —

From lazy days by the pool to weekend road trips and everything in between, summer is packed with adventures. To keep your energy high for all those warm-weather activities, you'll need to keep sweet, delicious snacks on the family menu.

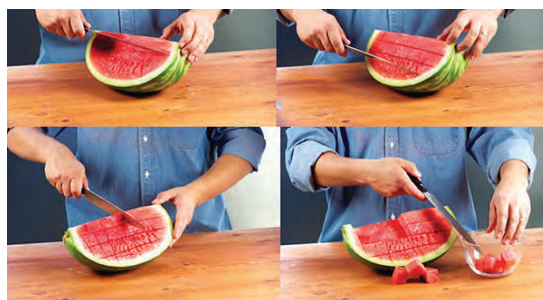

Make sure versatile, flavorful watermelon is always on your grocery list so you can enjoy it for breakfast, lunch, snacks, desserts, drinks and beyond. It easily fits your existing routines for morning smoothies and snacking on the go, or in make-ahead dishes you can serve when hunger strikes.

It's easy to cool off quickly on hot summer days with Watermelon Ice Pops, a simple, kid-friendly favorite made with watermelon and chunks of fresh fruit. Bursting with flavor, these frozen treats make snack time a cinch while tackling cravings, boosting hydration and supporting wellness in place of added-sugar treats.

For a light afternoon bite before the dinner bell rings, try this Watermelon Salad with Feta and Mint that offers sweet summer flavor without the hassle. Pairing long-time favorites in feta cheese and mint, it's a classic for a reason with delicious watermelon adding nutritional content.

Of course, as a kitchen staple to keep on hand throughout the year, watermelon is also perfect for enjoying all on its own at home or on the go. Whether it's diced, sliced, balled or blended, you can toss it in a jar for a healthy, hydrating snack.

Cutting watermelon into convenient chunks is fast and easy so you can eat at home or toss in a to-go container to take to the office, beach or soccer practice. Just cut a grid pattern on the fruit and cubes will tumble out, ready to eat. Don't forget to wash and dry the rind on the watermelon before cutting.

1. Cut the whole watermelon lengthwise into quarters. Lay each quarter on its rind with the interior facing up.

2. Place the knife about 3/4 inch down from the peak of the wedge. Holding the knife parallel to the far side of the fruit and starting at the edge of the rind, cut a horizontal line across the fruit all the way down to the rind.

3. Place the knife blade about 3/4 inch lower and make the same cut. Repeat. Turn the fruit to the other side and make the same horizontal cuts.

4. Starting at the end of the rind, make vertical cuts

straight down the rind, 3/4 inch apart all the way across.

5. Remove the cubes and serve or store in an airtight container in the refrigerator.

### Watermelon Ice Pops

*Recipe courtesy of National Watermelon Promotion Board*

- 1 watermelon
- chunks of fresh fruit (such as grapes, strawberries or kiwi)

Puree watermelon and pour into ice pop molds.

Drop in chunks of fresh fruit, insert caps and place in freezer.

Serve when frozen.

### Watermelon Salad with Feta and Mint

*Recipe courtesy of National Watermelon Promotion Board*

- 1/4 cup lemon vinaigrette
- 4 cups cubed watermelon
- 1/2 English cucumber, cut into 1/4-inch half moons
- 1/2 small red onion, thinly sliced
- 1/4 cup crumbled feta cheese
- 2 tablespoons fresh mint, roughly chopped

1. Drizzle vinaigrette in bottom of large canning jar. Layer with watermelon, cucumber, red onion, feta and mint.

2. Cover tightly with lid and shake to combine. Keep refrigerated until ready to serve.

Substitution: Use Greek dressing in place of lemon vinaigrette.

## Idaho Falls Angler Lands 43.25-Inch Lake Trout... And Returns To The Idaho Record Books

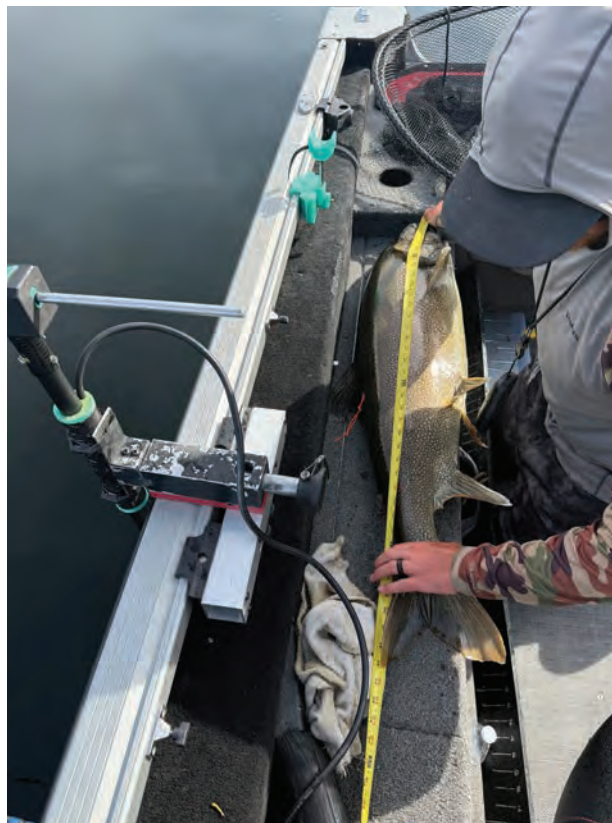

— Idaho Dept. of Fish & Game —

An Idaho Falls angler miraculously reeled in a new state catch-and-release record lake trout and, even more unbelievably, was able to hoist it up into the boat. Dylan Smith — the lucky angler in question — was fishing on Payette Lake in McCall on May 2 when a 43.25-inch lake trout took the line for a sprint.

Smith was able to land the laker (well, boat it), get it stretched out on the tape measure, and was shocked when the tailfin crossed the 43rd inch line. The previous state catch-and-release record for lake trout just barely hit 42 inches.

But that's not the end of the story.

Dylan Smith measuring record lake trout from Payette Lake, 2026

Dylan Smith ain't a stranger when it comes to the Idaho record fish books, and believe it or not, this was not his first rodeo with a 40-inch lake trout. During a separate outing in 2018, Dylan landed and recorded another impressive lake trout that eventually earned him a spot atop the record books. Shortly after, angler Aaron Goettsche beat out Dylan's record with a 42-inch lunker laker himself. Both fish were caught and released back into Payette Lake.

### Sensing a pattern?

Payette Lake is arguably one of the premier lake trout fisheries in the state of Idaho. Catches like these have made big splashes in the record books over the past decade or so, largely due to active lake trout management by the Southwest Region's McCall fisheries staff.

Years of netting to remove large numbers of smaller, young lake trout has reduced the population and

lowered predation on kokanee. As a result, the lake is producing healthy trophy lake trout again, and kokanee numbers have started to improve.

To read more about how Payette Lake's triumphant comeback as a lake trout destination fishery, check out this article ([dfg.idaho.gov/article/payette-lake-produces-new-state-record-lake-trout](http://dfg.idaho.gov/article/payette-lake-produces-new-state-record-lake-trout)) by Sportfish Coordinator, Martin Koenig.

### Want to Catch One? Here's How

If you're dreaming of record-breaking lake trout, it's time to get serious about your gear and tactics. Here's some tips for targeting these deep water predators:

- Technique: Trolling or jigging near the bottom are the go-to methods.
- Depth: Focus on 35–80 feet, where lake trout tend to hold tight to structure.
- Locations: Target underwater ridges, drop-offs, and boulder piles.
- Bait: Mimic kokanee. Use realistic lures, tipped jigs, and scent — lake trout can be selective, especially when food is abundant.

Be prepared for a potential record fish. Catch-and-release records will need a photo of the fish on a tape measure, or measuring board. You can find all the info and how to apply on the State Record Fish Page.

And lastly, congratulations to Dylan Smith on his spot atop Idaho's catch-and-release leader board.

### More About Idaho's State Record Fish

Thinking about chasing a state record fish? Check out the state record fish page at [idfg.idaho.gov/fish/record](http://idfg.idaho.gov/fish/record) for more information.

### How to Apply for a Catch-and-Release Record

All applicants must submit a complete Record Fish Application Form, with accompanying photographs. This form can be completed online or downloaded from our website at [idfg.idaho.gov/sites/default/files/state-record-fish-app.pdf](http://idfg.idaho.gov/sites/default/files/state-record-fish-app.pdf).

- Fish must be released alive. (See tips on safely releasing fish in the Fishing Rules booklet.)
- Steelhead, ocean-run salmon, bull trout, and white sturgeon submitted for records must be measured and photographed in the water.
- Catch-and-release records are based only on the total length (snout to tip of tail) for fish released alive.
- Fish must be photographed directly next to a ruler/tape or an object of known verifiable length.
- New catch-and-release white sturgeon records must be broken by a minimum of 2 inches.
- Catch-and-release records for all other species must be broken by a minimum of ½ inch.
- Fish within ¼ inch of the current record will be recognized as a tied record.
- All applications must be submitted within 30 days of the catch date.

### How to Apply for Certified Weight Records

Records will be awarded for either fish caught by angling (rod/reel) or by archery/spearfish for legal unprotected nongame species. Archery/spear fishing records will be listed separately and identified by the angler on the application form. No records will be awarded for fish caught during salvage seasons or at private pay-to-fish facilities.

NOTE: Idaho Fish and Game now provides certified scales for weighing potential records at the Panhandle, Clearwater, Nampa, Headquarters (Boise), Jerome, and Pocatello regional offices.

## F&G Releases The First Generation Of 'Captive Broodstock' Kokanee

— Idaho Dept. of Fish & Game —

Young kokanee are the offspring of adults raised at hatcheries

About four years ago, a "What if?" idea became reality, and kokanee anglers will soon be catching the results. During June, about a million kokanee fingerlings raised from Idaho Fish and Game's first "captive broodstock" were released into Idaho's lakes and reservoirs. Many of those fish will reach catchable size within two to three years.

Traditionally, Fish and Game had captured adult kokanee spawners from the wild and used them for breeding stock to produce the next generation. The new "captive broodstock" program started as an idea from Idaho Fish and Game fisheries staff to help stabilize the number of fingerlings stocked annually.

Stocking kokanee above Deadwood Reservoir

Fish and Game tries to stock around 7 million kokanee fingerlings every year, but a bad year for adult survival can affect how many fingerlings are available the following year. While Fish and Game can't change natural conditions that affect adult survival, hatchery production can buffer some of the fluctuations.

Taking a cue from the successful sockeye salmon hatchery program, which now produces about a

million young sockeye per year, fisheries staff decided to raise kokanee (which are landlocked sockeye) in a similar manner. They raised kokanee to adulthood in hatcheries and spawned those to augment the traditional "trap, spawn and rear" method.

"Raising and rearing fish for anglers is nothing new for Fish and Game because we've done it for over a century, but this is a new twist that we think will benefit kokanee anglers," said Beau Gunter, Fish and Game's State Hatchery Production Manager. "Within about four years, our fisheries and hatchery crews have taken it from a concept to young kokanee being released, which included raising the captive broodstock from eggs to adults."

Kokanee typically need consecutive years of favorable water conditions to produce good-to-excellent fishing, and the reverse is also true. A year or two of poor conditions can reduce adult survival regardless of how many fingerlings are stocked. The captive broodstock will help biologists start each year with a consistent number of young fish, so when conditions are favorable, kokanee can flourish. But that can't occur without a steady supply of fingerlings to stock.

To start the captive broodstock, eggs were taken from adult fish in the North Fork Payette River in the fall of 2022 and sent to Cabinet Gorge Fish Hatchery in the Panhandle. The eggs were hatched, and the fry reared for a year. Then about 15,000 young kokanee were transferred to the Grace Fish Hatchery in southeast Idaho and reared two more years to spawning age. Their offspring are the fingerlings crews recently released.

The next three generations of captive spawners are also being raised in hatcheries, and given the positive results of the first crop, fisheries managers are hopeful for they can ramp up to about 3 million fingerlings annually as hatcheries continue to improve their techniques.

Here's where the first generation of captive broodstock fingerlings were stocked:

- Anderson Ranch Reservoir, 66,934
- Arrowrock Reservoir, 201,217
- Deadwood Reservoir, 53,505
- Hayden Lake, 82,200

## Citizen Science Is The Key To F&G's Hugely Successful Program, Turkey Tracker

— Idaho Dept. of Fish & Game —

**Citizen scientists have submitted over 2,100 turkey sightings since the program debuted in 2024.**

Idaho Fish and Game's hugely successful project — dubbed *Turkey Tracker* — launched in the summer of 2024. During its inaugural two years, the project has racked up 2,157 reports of over 15,000 turkeys, all thanks to the public.

A total count of turkey observations per each region, 2024-2025

This is a remarkable feat, one that has not only thrilled biologists but also public land hunters.

"Prior to this citizen science effort, there hasn't really been a way to track turkey populations, not just in Idaho but across the country," said Jeff Knetter, Fish and Game Upland Game and Migratory Game Bird Coordinator. "Now, thanks to the public's observations, we have a lot of great data on how turkeys are distributed across the Gem State, which can and has helped us set turkey seasons."

As Jeff mentioned, Fish and Game staff used the 2024-25 observations to help inform hunting season proposals during the January 2026 Commission meeting. You can rewatch that presentation to [www.youtube.com/watch?v=48hn9qJbDYE&t=1697s](https://www.youtube.com/watch?v=48hn9qJbDYE&t=1697s).

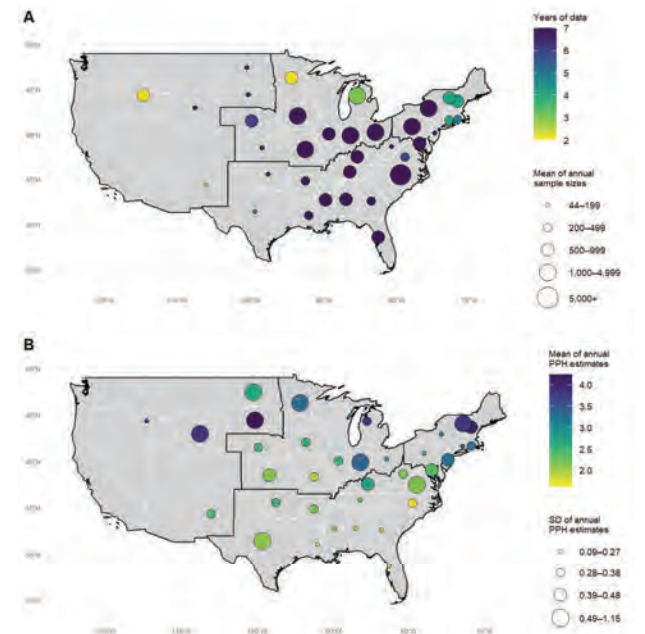

### Idaho among the top states for turkey population data

Of the 36 states monitoring poult-per-hen (PPH) and poult-per-brood (PPB) ratios, Idaho ranks among the top five for these reproduction metrics; PPH is an index of overall productivity and PPB is an index of poult survival. (If you yourself have used our Turkey Tracker to report turkey sightings, give

yourself a pat on the back).

Despite being a relatively new player in the turkey-tracking game (now in its third year), Idaho has punched above its weight and provided an average of 665 useable turkey observations in both 2024 and 2025.

But where Idaho truly sets itself apart is the accuracy of its data. Note the second map of the United States below.

Poult per hen chart 2024-2025 turkey tracker

That tiny dot on Idaho? The dot's size represents the margin of error for the state's poult-per-hen observations. In other words, Idaho's reporting and data isn't as varied as other participating states, spread out across most of central and eastern U.S.

"We're proud of how successful this program has been so far, and really appreciate the work Idahoans have done to provide valuable data and contribute to the overall understanding of how wild turkeys are faring nationally," Knetter said. "Turkey productivity in Idaho is top tier."

### But the quest continues

Now, as we head into July and August, tracking turkeys is more important than ever. That's where you come in!

Turkey Tracker relies solely on folks like you reporting their turkey sightings. Because we are interested in tracking nesting success and reproduction, observations of broods from July 1 to Aug. 31 are especially important. So, next time you're out and about and see some wild turkeys, pull out your smartphone and document your sightings. Think of it as Pokémon Go meets birding.

Right now is an important as ever to get spottin' turkeys! There are 2 ways to report your observations. The first way is to go online and fill out a report at [idfg.idaho.gov/wildlife/turkey/brood-survey](https://idfg.idaho.gov/wildlife/turkey/brood-survey). Alternatively, turkey trackers can download a free app called Survey 123 to report their sightings.

Those who report have the option of submitting photos of the birds, but photos are not required.

Head on over to Idaho Fish and Game's Wild Turkey webpage ([idfg.idaho.gov/wildlife/turkey](https://idfg.idaho.gov/wildlife/turkey)) to learn more.
