City of Coeur d'Alene

LEAF-FEST

Begins November 12th

WEDNESDAY, NOVEMBER 12th, 2025 marks the start of the City of Coeur d'Alene's annual leaf pick-up program. Please be sure to **KEEP** leaves on your property until **Saturday, November 1st**. After Saturday the 1st, please rake your leaves and pine needles about one foot away from the gutter/curb line to allow for water drainage. City crews and equipment are limited, so we need your help. Leaves will be picked up only once. Please do not put leaves in the street after city crews have completed your area and **do not** include branches, grass clippings, garden debris, or garbage/trash. Bagged leaves/needles will not be picked up.

Pick-up will start south of Sherman Avenue and move north. We expect completion before December 5th. Follow our progress on maps.cdaid.org/leaf

LEAF-FEST DO'S & DON'TS

DO:

- **KEEP** leaves and needles on property until **Saturday, November 1st**.
- Please move cars off the street if at all possible during leaf pick-up.
- Keep the leaves about one foot away from the curb line to allow drainage.
- Be alert for leaf pick-up equipment traveling through your neighborhood.
- Keep a safe distance away from leaf pick-up heavy equipment.
- Recognize that we have a tough job to do in a very short window between when the leaves fall and when the snow flies.
- City and private trucks are exempted from covering loads during the leaf pick-up period. Sweepers will follow city trucks to collect remaining/excess leaves.

DO NOT:

- Place bagged leaves in the street.
- Mix branches, debris or other trash in with the leaves.
- Miss the deadline...We only have time for one pass.

REMEMBER:
Needles and Leaves ONLY!
No branches, grass clippings or garden debris.
NO GARBAGE

If you have questions or need additional information, please check the website streets.cdaid.org or call the Street Maintenance Information Line at 208-769-2235

- The main meal must include a minimum of 4 ingredients and require at least one cooking utensil other than a fork.
- The man does the shopping for all the necessary ingredients.
- Clean up as you go.
- Aprons are optional.

For a list of complete rules, visit the website previously cited.

HOW TO OBSERVE MEN MAKE DINNER DAY

Have the men in the house prepare a meal and use #MenMakeDinnerDay to post on social media. That's not the only way to celebrate, though. Check out these ideas!

- Invite your children into the kitchen and give them all the skills they need to survive in the kitchen.
- Watch cooking shows with your man so you both can be inspired.
- Create a menu for the week with your family that everyone can agree on.

See A Bat In Or Around Your Home? Don't Panic, Here's What You Need To Know

— Idaho Dept. of Fish & Game —

Fall is a crucial time for bats as they migrate or prepare for hibernation. It's not uncommon to find a bat roosting on the side of buildings or homes. However, there's no need to panic; they are often just resting to conserve energy while passing through.

Bats are frequently misunderstood. They are not the blood-sucking, frightening creatures depicted in movies. In reality, they play a vital role in our ecosystem.

A big brown bat rests on a tree trunk

Most bats, including those in Idaho, consume large quantities of insects, such as moths, flies, and mosquitoes. They provide free pest control by eating the insects that harm crops, saving U.S. farmers over \$3 billion annually. In Idaho, bats are worth an estimated \$313 million dollars annually to farmers.

All bats in Idaho are protected nongame species, making it illegal to harm, harass, or kill them. The best way to protect bats is to avoid disturbing them, ensuring they continue to thrive in Idaho's environment.

Always wear gloves when handling a bat.

What to do if you find a bat

Throughout the year, Idaho Fish and Game receives calls from concerned homeowners about bats. Here's what to do if you see a bat in or outside your home:

- Never handle a bat with bare hands.
- If you find a bat inside your home and are certain you haven't had a rabies exposure, refer to this instructional video or call Idaho Fish and Game for guidance on safely capturing and releasing the bat outside.
- If you have a bat colony in your home (e.g., attic, garage, or shop), contact Idaho Fish and Game for advice on safely evicting and excluding them. Unless there's a public health threat (e.g., bats entering living spaces), the best time to evict bats from structures is early September to mid-October—after bat maternity season and before hibernation.
- If you find a bat outdoors roosting (hanging upside down) on a wall or any other surface (e.g., tree, shrub, garden plant, firewood pile, or inside a patio umbrella), leave the bat alone and keep people and pets away from it.
- If you find a bat outdoors on the ground that appears weak, sick, or injured and is unable to fly, do not handle it with bare hands. Ensure the bat is safe from people, pets, and natural predators, then contact Idaho Fish and Game for guidance. Sometimes, the energy demands of migration or the inexperience of young bats leave them dehydrated, weak, or disoriented.
- If you have had any direct contact with a bat (especially if bitten or scratched), or you find a bat in the same room as someone who may be unaware of a bite (e.g., a sleeping person or a child), safely capture the bat without handling it with bare hands, and contact your healthcare provider or local Public Health District for a risk assessment.
- If you find five or more dead or sick bats at the same time in the same location, contact Idaho Fish and Game for guidance.
- Lastly, please ensure your pets are vaccinated for rabies.

Choose Fresh Cherries for Healthy and Sweet Back-to-School Snacking

— Family Features —

This year provided a long sweet cherry season, which means fresh sweet cherries will be available in produce aisles during the back-to-school season. Cherries, which are a superfruit packed with nutrients and antioxidants, are perfect for lunchboxes, after-school snacking and grab-and-go munching in the car on the way to and from activities.

Sweet cherries' high antioxidant content, beneficial effects on inflammation and natural ability to improve sleep quality make them a must-add to your grocery list. Even picky eaters can enjoy this nutritious snack. It's a sweet treat that won't spike sugar levels, providing steady nutrition as cherries boast a lower glycemic index than almost any other fruit.

Sweet cherries are also loaded with vitamin C to help boost immune systems and keep skin glowing. Studies have found sweet cherries are packed with serotonin, which is an important neurotransmitter that plays a role in managing stress and stabilizing mood. Cherries are also a great source of fiber, adding to their benefits during the back-to-school season.

Cherries are not only a healthy snack; they are also convenient. For younger kids, cherries can be easily pitted for easy and safe snacking. If you don't have a cherry pitter, cherries can be pitted with a knife or kids can try removing the stem and gently pushing a straw or chopstick through the middle of the cherry until the pit pops out. For older kids, cherries only need to be rinsed before adding them to a lunchbox. Cherries also easily keep for hours without being refrigerated.

In addition to school lunches and snacking, cherries can also be added to many breakfast foods like pancakes, granola, yogurt, smoothies or these Cherry Overnight Oats. Give your family a jumpstart on the day with a healthy cherry breakfast featuring

sweet cherries to deliver nutritional benefits, a natural sweetness and bright color that is sure to delight.

The benefits of this wholesome fruit can be accessed any time by drying, canning and freezing cherries at their peak ripeness to preserve their goodness for year-round enjoyment.

Hunters: Stop At All Designated Check Stations

— Montana Fish, Wildlife & Parks —

HELENA – During the general big game season, Montana Fish, Wildlife & Parks runs biological game check stations on weekends around the state. Please remember that all hunters are required by law to stop at all designated check stations on their way to and from hunting, even if they have no game to be checked. If you are hunting and see check station signage along the roadway, please pull in where directed.

Biologists gather a lot of valuable information at these check stations, working with hunters to collect wildlife data and gauge hunter participation and harvest rates.

At these stations, you won't be asked for your hunting license, but biologists will enter the sex and species of your animal, check the teeth for aging purposes, and measure the antlers or horns if it is a male. Some stations also offer the option to have animals sampled for CWD if desired. Hunters also will be asked for a general area of where they were hunting, what game they were after, how many were in their party, where they are from, if they were hunting on public, private or fee land, and if they were satisfied with their hunt. It's an effective way to gauge both hunter traffic, success and experiences, while recording key population data.

Please follow all directions and signs from FWP staff as they work diligently to check game, answer questions, and get you on your way. FWP staff greatly appreciate all hunters' cooperation in this effort.

Winners, please have your parent or guardian call our office at 208-667-0651 or swing by our office at 107 N. 5th Street in Coeur d'Alene to claim your prize.

Pets of the Week: Fern and Sky

— Better Together Animal Alliance—

Meet Fern! Fern is a sweet 7-year-old girl looking for a loving home. She shows her affection by meowing to let you know she wants attention and companionship. Fern is perfectly content living indoors and enjoys lounging on high perches, keeping an eye on her surroundings from her favorite spots. She came to us from the Careywood Colony, so her history with dogs is unknown. However, since being in our care, she has done wonderfully with other cats, people, and kids. Fern is also litterbox trained, making her an easy-going addition to a loving household. If you're ready to welcome a charming, affectionate, and playful cat into your home, come meet Fern today!

Meet Sky! Sky is a 2-year-old, 52 pound mixed-breed with a gentle spirit. She can be a little shy and nervous when meeting new people, but with patience and time, she begins to relax and show her sweet, affectionate side.

Once she feels comfortable, Sky loves attention and can get quite excited when she's happy. Sky is still learning on her leash skills, but she's already learned to stay close by your side on walks. She has also done well with other dogs and could enjoy having a canine companion to share her days with. If you're looking for a loving companion - come by and meet Sky today!

- Keep a pretty basket by your front door for anything that needs to go out with you when you leave. This can be store returns, backpacks, exercise gear for the gym, your sunglasses, whatever. When you leave the house, check the basket!
- "I use small tension rods to hold wrapping paper in my laundry room. I have the birthday/general use ones upright under a desk (they fit and don't fall over, so I can store them close together) and the holiday ones are in the very top of a high shelf in the cabinet, out of the way." -- C.S. in Mississippi
- If you have a little bit of touchup paint left in your gallon can, transfer it to a mason jar. Write the exact color and brand on the lid, and it will be much easier to store.
- Fold and snip a coffee filter into a paper snowflake. Lay over an iced cookie or cake to sift a sugar design on top.
- "Our basement was dark and a little claustrophobic. My husband painted it a lovely sunny yellow and that helped, but it needed something else. I took a photo of the spectacular view at our son's house in Montana, and had the photo blown up. We mounted it on the wall with some dummy curtains! It's perfect, and it reminds me of him." -- R.W. in New York
- Need to chill a bottle of wine quickly? Wet a kitchen towel, then wrap it around the wine. Twist the ends to secure, and put the whole thing in the freezer for 30 minutes.

Make Fancy Stuffed French Toast for Family Gatherings

Make a weekend breakfast extra special with this stuffed French toast recipe featuring oranges and fresh pecans, which are abundant during this time of year. The whole family can participate in the preparation the night before, from beating eggs to spooning the cream cheese mixture into pockets in the French bread. When you wake up in the morning, just pop the dish in the oven, heat up the simple and mouthwatering orange-pecan maple syrup topping, and enjoy leisurely family time around the table.

EASY OVERNIGHT STUFFED FRENCH TOAST

Makes 5-6 two-slice servings

- 1 8-ounce package low-fat or regular cream cheese, softened
- 3/4 cup chopped pecans
- 1/3 cup sugar
- 3 tablespoons orange zest from a fresh orange
- 1 large loaf French bread (day-old bread with a softer crust works best)
- 6 eggs, beaten
- 3/4 cup milk
- 1 teaspoon vanilla extract
- Maple syrup for Pecan Maple Syrup (recipe follows)

First, read through the steps and choose appropriate jobs for every family member. Let's begin!

To assemble: Blend the cream cheese, 1/2 cup of the pecans, the sugar, and 2 tablespoons of the orange zest in a medium bowl.

An adult or older child should cut the loaf into about 10 to 12 1-inch slices. Then cut an opening in one crust side of each slice two-thirds the way down to form a pocket. Tuck a spoonful of the cream cheese mixture into each pocket and press to close. Arrange in two rows in a 9-by-13-inch greased baking pan.

Combine the beaten eggs, milk and vanilla in a medium bowl. Pour over the bread, making sure that it is soaked with egg mixture. Cover with aluminum foil and refrigerate overnight.

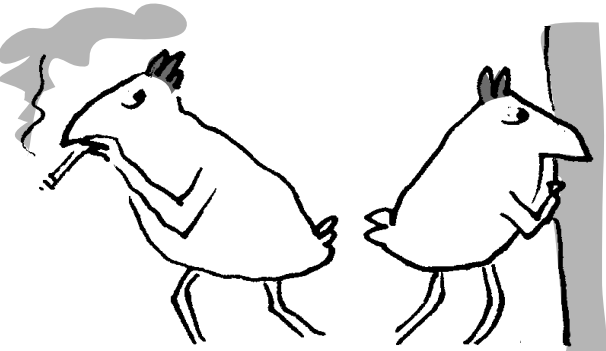

To bake and serve: In the morning, preheat oven to 350 F. Remove foil and bake for 45 minutes until lightly golden. Serve warm Pecan Maple Syrup (below) drizzled over individual servings.

Pecan Maple Syrup: Over low heat, warm the desired amount of maple syrup with the remaining chopped pecans and orange zest.
