Get Detailed Information **214 771-6887**

Illustration, not to exact scale, conceptually shows the look of a finished cabin when the cabin set materials are combined with some purchaser supplied local Home Depot or Lowe's miscellaneous. The optional kitchen interior shown suggests one possible and easy DIY kitchen. Note that these cabin sets can exceed 21,000 pounds and are hauled C.O.D. by 18-wheel semi-truck. All logs and materials delivered in natural wood, with all plans and instruction, ready to assemble. Contents © 2024. ALL RIGHTS RESERVED

Free Tax Services

Until April 15th

— AARP Tax-Aide —

Local AARP tax-aid volunteers are expected to help thousands more North Idahoans with free tax preparation services through April 15th.

The service has no age restrictions, although it is geared toward older adults with low to moderate income. It's not necessary to be an AARP member to take advantage of this service.

Free tax prep assistance will be offered at three appointment sites and one walk-in site. Bring a Social Security card for all people on the return, a photo ID, your 2022 tax return and all 2023 income documents, such as W2s and 1099s.

The walk-in site, no appointment required:

- **Dalton Gardens Church of Christ**, Monday-Saturday, 9am-3pm, Fourth Street and Hanley, Dalton Gardens

The by-appointment sites, available now:

- **Lake City Center**, Monday-Friday, 9am-3pm, 1916 Lakewood Dr., CdA, 208-665-7329 to make an appointment
- **Rathdrum Senior Center**, Wednesday and Friday, 9am-3pm, 8037 Montana St., Rathdrum, 208-659-2464 to make an appointment
- **Idaho Health and Welfare Office**, Thursdays only, 9am-3pm, 35 Wildcat Way, Kellogg, 208-659-1827

TREE REMOVAL services, difficult and dangerous. Pruning and stump grinding with professional clean-up. Serving Kootenai County. Certified arborist. Licensed and insured. Ryan, 208-659-8400

FWP Seeks Public Comment On Recommended Awards For The Montana Trail Stewardship Grant Program

— Montana Fish, Wildlife & Parks —

Montana Fish, Wildlife & Parks is seeking public comment related to the environmental impacts of the proposed list of funding awards for the 2024 Trail Stewardship Program (TSP) grant cycle. This year the program is recommending \$2,000,000 in grant funds to 36 projects around the state.

In total, FWP received 40 applications requesting \$2.33 million in funding. Applications were submitted by federal and state agencies, towns, cities, counties, recreational clubs and nonprofit organizations. Eligible projects include development and rehabilitation work on urban, rural, and backcountry trails; construction of new trails and facilities; and snowmobile and cross-country ski trail maintenance and grooming operations.

The 2024 application process was highly competitive with many strong projects proposed. FWP staff conducted an internal review and scoring of applications. In addition, State Trails Advisory Committee (STAC) members reviewed applications and met March 5 and 6 in Great Falls to provide feedback on projects and make recommendations to FWP for distribution of the funds.

A list of the proposed grant recipients is available at: fwp.mt.gov/aboutfwp/grant-programs/trail-stewardship/public-comment. Some projects are proposed to receive full funding, while others are proposed to receive partial awards.

Comments will be accepted in writing to P.O. Box 200701 Helena, MT 59620-0701, and by email to: TSPGrants@mt.gov.

Comments will be accepted until April 3, at 5 p.m.

214-771-6887

Illustration, not to exact architectural scale, conceptually shows the look of a finished cabin when the cabin set materials are combined with some purchaser supplied local Home Depot or Lowe's miscellaneous. The optional kitchen interior shown suggests one possible and easy DIY kitchen. Note that these cabin sets can exceed 21,000 pounds and are hauled C.O.D. by 18-wheel semi-truck. All logs and materials delivered uncoated natural wood, with all plans and instructions, ready to assemble. Contents COPYRIGHT 2024. ALL RIGHTS RESERVED

Cassidy Rosemarie Conely

November 21, 2003 –

February 28, 2024

At Lumaha'i Beach (North Shore, Kauai), February 28, 2024, Cassidy Rosemarie Conely left this world to go home with Jesus in Heaven. The world will miss this beautiful human, with so much authenticity, depth and feeling. At only 20-years old, Cassidy had a gentle and kind heart. She adored cute little animals, drove big trucks, loved coffee-date-sister-time and did back flips off cliffs. She was her daddy's world, his everything, his Boo. Her safe-place and confidante was her mama. Cassidy saw the fine and beautiful details of the world.

She had sparkling blue eyes and a smirk that usually lead to something very funny or mysterious. Her loves were the ocean and water, art and self-expression, road trips with loved ones, riding her Harley and lifting heavy weight in the gym. She allowed

herself to be messy and take risks. Cassidy always marched to the beat of her own drum. She loved both cozy clothes and dressing up and had an eye for doing brilliant make-up. She had a raw beauty that shined whether she was in her pajamas or ready for a night out.

Cassidy was born in Reno, NV on November 21, 2003 and moved to Hailey, Idaho in 2010 with her family. Growing up in the Wood River Valley, she participated in 4-H, played volleyball, track and gymnastics. You may have encountered her light and love, serving up Bowls of Soul at Java in Hailey. She was determined to graduate Wood River High School early and accomplished that in November of 2021, 6 months before her peers. She became a tattoo artist and owned her own shop in Boise at the age of 19. She created beautiful art as tattoos and especially loved tattooing flowers.

Cassidy's memory will forever be cherished by her dad Jason Conely, sister Josie Conely, mom Yvonne and stepdad Robbie Walden, step-sisters Harper and Rowen Walden, grandparents Pat and Jerada Conely, grandfather Sigi Vogl (Natasha), grandmother Katherine Sterling (Don), aunt Christina Crawford (JC), aunt Jennifer Caudle (Lauren), cousin Patrick Grover, and boyfriend Rory March. May her legacy live on through family and friends. May we remember her for being goofy, kind, messy, feeling all of her feelings, being compassionate and greeting others with a firm hand-shake.

We are so blessed and humbled by the outpouring of love and generosity witnessed during this time. Thank you for your love. As you remember the beauty and life of our girl, remember to move others to be their authentic selves, to be kind, to love others freely, to be understanding and to be brave, in the same way that Cassidy did best.

"This is my comfort in my affliction, that Your promise gives me life." Psalm 119:50

Miscellaneous

THE COUNTDOWN CONTINUES

Last year's Easter marked 10 years to the return of Christ. This year will be 9 years.

It's true we don't know the day or the hour.

So the debate is this. Will Christ return 2,000 years to his resurrection or will it be 2,000 years to his crucifixion?

We know God is operating in terms of 1,000 year programs, as we will reign with Christ 1,000 years after the tribulation period.

This is where I get 2,000 years on his return (with help from the Holy Spirit, read John 16:13).

Comments are welcome.

Community Pond Program Grant Money Available

— Montana Fish, Wildlife & Parks —

Groups or individuals interested in constructing or improving a community fishing pond have until Feb. 1 to apply for a Montana Fish, Wildlife & Parks' Community Pond Program grant. The objective of the Community Pond Program is to enhance public fishing opportunities in or near Montana communities by providing funding that may be used to construct or improve a public fishing pond.

A total of \$200,000 in grant funds is available for projects on ponds that offer public fishing opportunities. Past projects include building habitat structures, dock installations, pond dredging, ADA-accessible angling amenities and the purchase of aerators.

Applicants must provide at least 30 percent of the total project cost, which can include contributions such as heavy equipment time, construction materials, labor, engineering services and more. Anyone wishing to sponsor a project may apply.

Since 2003, the Community Pond Program has funded projects that benefit young anglers and their families by providing locations where individuals of all ages can learn angling skills. Additional information on the Community Pond Program, including a grant application form, see fwp.mt.gov/aboutfwp/grant-programs/community-pond.

Applications, which are accepted each year, must be received on or before Feb. 1. Applicants are required to contact their local FWP fisheries biologist to obtain project support. For more information, contact Michelle McGree, FWP Program Officer, at 406-444-2432 or mmcgree@mt.gov.

Hunter Harvest Stats Show Drop In Elk And Mule Deer Harvest, Bump In Whitetails In 2023

Part 1 of 2

— Idaho Dept. of Fish & Game —

For the first time since 2013, statewide elk harvest came in below 20,000.

It didn't take a whole lot of rubbing the crystal ball to forecast a less-than-stellar mule deer harvest in 2023 because of the severe winter that preceded it. And with last fall's harvest stats now available, the story that commenced after one of the worst eastern Idaho winters on record can be told.

Ironically, it may have been the opposite weather that contributed to the lowest elk harvest since 2013. Warm fall weather with little precipitation often creates poor hunting conditions, but weather or not, the statewide elk harvest dropped nearly 2,400 animals compared to the prior year.

But not all deer and elk harvests were down. White-tailed deer harvest had a modest bump—and the first increase in four years—signaling herds may be recovering from a large disease die-off in 2021.

"It was kind of a screwy year," said Toby Boudreau, Deer and Elk Coordinator. "I think everyone expected the mule deer harvest to drop significantly, but we're hopeful the mild winter will speed up their recovery, or at minimum, get it off to a good start."

The elk harvest is a bit of a head-scratcher. Anecdotally, Fish and Game heard reports from experienced elk hunters who were not finding elk in their usual spots during fall, and suspect weather may have been a significant factor.

"We're fairly confident the dip in the statewide harvest does not reflect a dip in the elk population, but it may take another year to see that," said Boudreau.

Additionally, Fish and Game used data from radio-collared elk that showed some herds stayed on summer range much longer than in other years. In fact, the lack of movement off their summer ranges actually prevented the Department from conducting one of its planned elk surveys.

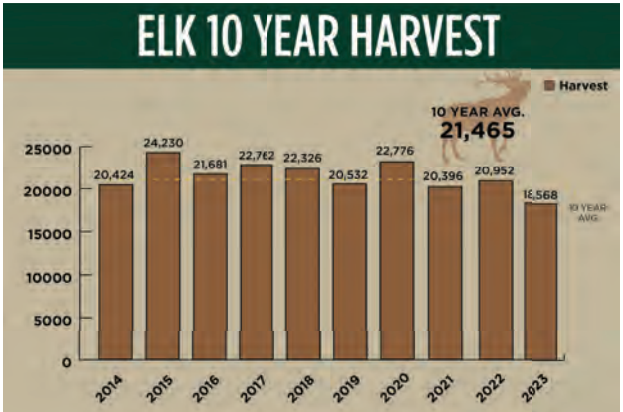

Harvest highs and lows

It was a good run. 2023 would have been the tenth year in a row for elk harvest to eclipse the 20,000

mark, but that was not how last fall played out. Elk hunters took home 18,568 elk in 2023, roughly an 11% drop in animals harvested compared to 2022. Roughly 87,864 elk hunters—less than 1% fewer than 2022—took to the mountains in 2023 in search of elk, with 21% of those individuals successfully harvesting an elk.

To no one's surprise, mule deer hunting saw a big decline in 2023. A total of 74,503 mule deer hunters hunted last fall, with nearly 25% of those successfully packing out a mule deer. Last year's roughly 22% decrease in total mule deer harvest is also the seventh-consecutive year below the 10-year average. While it may seem impossible to have 70% of the years below the 10-year average, it's a reflection of an unusually large mule deer harvest in 2015-16 that drove up the 10-year average.

Finally, onto whitetails. White-tailed deer harvest has been at the top of bad news headlines in recent years due to large disease outbreaks; however, in 2023, the number of whitetails harvested showed a bump in the right direction, from 19,182 in 2022 to 19,828 in 2023, which hopefully reflects recovering whitetail herds. Last fall's whitetail harvest also eclipsed the mule deer harvest for only the sixth time since 1975, when Fish and Game began tracking deer harvest by species.

Elk

By the numbers

- Total elk harvest in 2023: 18,568
- 2022 harvest total: 20,952
- Overall hunter success rate: 21%
- Antlered: 11,363
- Antlerless: 7,205
- Taken during general hunts: 11,719 (17% success rate)
- Taken during controlled hunts: 6,849 (23% success rate)

How it stacks up

The most notable statistic from the 2023 elk season is the first bullet point shown above: 18,568 total elk harvested. That number is down 11% from the previous year and marks the first time since 2013 that the total number of elk harvested came in below 20,000.

Now, what does that mean? It's difficult to prove what factor or factors played a part in the drop in elk harvest, but it's within the normal fluctuations in harvests from year to year.

Statewide, elk populations have been relatively stable, and were not impacted by winter as badly as mule deer or pronghorn in eastern Idaho.

And overall hunter numbers were practically identical to the previous year's hunter effort. Additionally, general season hunter success was right in line with previous years (17%) while controlled hunt success dropped substantially from an average of 41% over the previous five years to 23% last year.

Hunter Harvest Stats Show Drop In Elk And Mule Deer Harvest, Bump In Whitetails In 2023 Part 2 of 2

— Idaho Dept. of Fish & Game —

Mule Deer

By the numbers

- Total mule deer harvest in 2023: 18,329
- 2022 harvest total: 23,588
- Overall hunter success rate: 25%
- Antlered: 15,245
- Antlerless: 3,083
- Taken during general hunts: 13,267 (21% success rate)
- Taken during controlled hunts: 5,062 (46% success rate)

How it stacks up

Leading up to the 2023 mule deer hunting season, Fish and Game wildlife managers knew hunting would be tough due in large part to one of the worst winters we’ve had on record in eastern Idaho.

If you recall, in March 2023, Fish and Game wildlife managers saw the writing on the wall, and proactively cut many antlerless hunts for that year. Despite a large effort by staff and volunteers to emergency feed deer and elk, a lot of animals were lost due to deep, prolonged snow and frigid temperatures that stretched into spring.

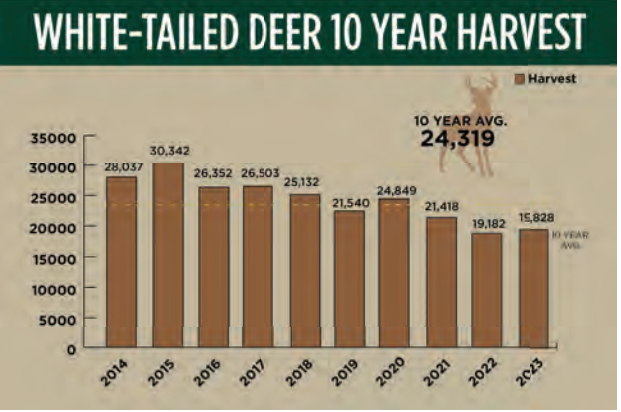

Harsh winters like the one in 2023 can potentially set herds back several years, and the department will continue to monitor the effects in the upcoming years.

Looking at last year’s mule deer harvest numbers from a statewide perspective, we see a roughly 22% decline from the previous year, marking the first time mule deer harvest has, too, been below the 20,000 mark in over 12 years.

Hunters themselves appeared less on the landscape last year, too, tallying 74,503 during 2023. That’s a 6% drop.

Back in August 2023, Idaho Fish and Game wildlife officials noted that hunters should expect to see fewer fawns and two-point bucks in those hard-hit areas, and smaller herds in general. And while mule deer herds typically take several years to rebound from a harsh winter, they are a resilient bunch. And incredibly mild winters, like the one we just had, can significantly benefit rebounding muleys.

The bottomline: Mule deer herds got hit hard in parts of southern Idaho, but history has shown they can recover, and a few more mild winters can accelerate that effort. Hunters need to have some patience, but they may start to see signs of recovery as early as next fall with more young bucks being out there.

White-Tailed Deer

By the numbers

- Total white-tailed deer harvest in 2023: 19,828
- 2022 harvest total: 19,182
- Overall hunter success rate: 40.3%
- Antlered: 13,741
- Antlerless: 6,088
- Taken during general hunts: 18,548 (38% success rate)
- Taken during controlled hunts: 1,281 (40% success rate)

If you’ve been waiting for some good news, well here it is.

White-tailed deer represented the biggest ‘win’ for the 2023 hunting season, as noted by the upswing in harvest numbers for the first time since 2019. An estimated 49,098 white-tailed deer hunters hit the woods last year, with 40% of those successfully bagging a deer. As predicted, heading into the 2023 hunting season overall harvest numbers for white-tails increased from 19,182 to 19,828.

Recall back in 2021, epizootic hemorrhagic disease (EHD) wreaked havoc on the Clearwater region’s whitetails, killing an estimated 6,000-10,000 deer that year. Like any species, it takes time for animals to rebound. Prior to the ’23 hunting season, Boudreau forecasted “another 2-3 years” before the Clearwater’s whitetail herds would be fully recovered, but optimistically pointed out that they were in fact “over the hump.”

Overall, Idaho’s white-tailed deer population outside the Clearwater Region is looking good. Fish and Game wildlife staff will continue to monitor the EHD and CWD situation among deer and elk populations during the summer and fall, as well as evaluate fawn survival rates upon the conclusion of this winter.

Please be mindful that even as April and early May come and the snow melts and hills begin to green that deer are still energetically stressed from previous winter conditions and its effect on their bodies. Deer go into the winter with their groceries on their back in the form of fat — the less they are stressed and pushed around on the winter ranges, even during early spring, is an important factor in their survival and the health of their future offspring.

Mussel-Fouled Boat Intercepted At Anaconda Inspection Station

— Montana Fish, Wildlife & Parks —

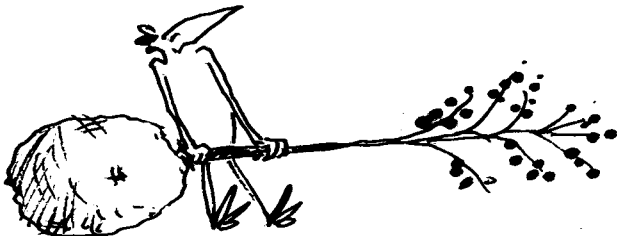

Montana's first mussel-fouled watercraft of the year was intercepted at the Anaconda watercraft inspection station on March 10.

The pontoon boat was recently purchased used in North Dakota and was travelling along Interstate 90 west toward Ephrata, Wash. Mussels were found along the hull throughout the lifting strakes as well as the transom and gimbal areas. Inspectors performed a full decontamination on site, and the boat was locked to the trailer. Previous launch information was unknown, but the new owner believed it had not been in the water since last summer.

All watercraft (motorized and non-motorized) coming into Montana from out of state must be inspected. Watercraft must be drained of all water before transporting.

Watercraft inspection stations are Montana's first line of defense to prevent the movement of aquatic invasive species (AIS) which can have devastating impacts on Montana waterways. Boaters must stop at all watercraft inspections stations they encounter.

Learn more at fwp.mt.gov/conservation/aquatic-invasive-species or call the FWP Aquatic Invasive Species Bureau at 406-444-2440.

THE 7 REASONS WE ARE

- # We're the largest landscape yard in North Idaho
- # We sell more topsoil than all other landscape yards combined
- # We have the largest selection of:
 - River Rock 15 varieties
 - Sand 2 types
 - Crushed Rock 20 varieties
 - Compost 2 types
 - Bark 6 types
 - Garden Mix 3 types
 - Red Lava Rock
- # Our buckets are specially designed to load shorter pickups
- # We use full size, 12 yard dump trucks to lower your delivery costs (compared to our competitors' smaller trucks)
- # When you pull into our lot, we greet you at your vehicle, and will load and get you on your way quicker than anyone
- # Service has always meant more to us than any awards

Now here's a tip!

by Jo Ann Derson

- *What's the best way to keep sheet sets together? Tuck all the pieces in a matching pillowcase, of course.
- Need to hull strawberries? Try using a straw. You position the straw at the bottom of the strawberry, then push up toward the stem. It works quickly and well.
- If you mount a magnet strip in your bathroom or on your vanity, you can use it to hold bobby pins or metal barrettes. Or mount a ribbon to hold all kinds of hair clips.
- Baby leg protectors are cute. And cheap, if you have some old athletic socks. Cut off the ends, slip over baby's legs, and watch cutie scoot across the floor.
- If your entertainment electronics have a clock that is too bright, cover it with plain tape. You will still be able to read the time, but the tape will lessen the glare.
- My in-laws have a vaulted ceiling, and there is a corner that even the longest-handled duster won't reach. My brilliant son had an idea to get down the cobwebs that had accumulated there. He used a rubber band to secure a dish towel around a tennis ball. Then he just tossed it at the area repeatedly. I can't believe how well it worked.
- If new denims are too stiff, add half a cup of salt to your wash water along with the regular detergent.

Send your tips to Now Here's a Tip, 628 Virginia Drive, Orlando, FL 32803.

Illegal Possession Of A Bighorn Sheep Head Leads To Big Fines And Penalties

— Idaho Dept. of Fish & Game —

On March 1, 2024, an Idaho resident was sentenced in a Kootenai County court for the unlawful possession of a bighorn sheep ram he claimed to have salvaged as a roadkill in Idaho. The offender was granted a withheld judgment and ordered to pay a \$10,000 Civil Penalty, \$1,307 in restitution for DNA processing, two years supervised probation and a two-year hunting license revocation.

The case originated in Fremont County where Idaho Fish and Game opened an investigation after the filing of a suspicious Roadkill Salvage Report of a bighorn sheep ram reported to have been picked up as a roadkill in Fremont County, Idaho. Under Idaho law, individuals may recover and keep wildlife species classified as upland birds, upland game animals, big game, furbearers and predators that may be lawfully hunted or trapped that have been killed by accidental vehicle collisions. Some of those animals, including big horn sheep, require inspection by Fish and Game staff after the salvage report. Montana's vehicle salvage law only allows for the salvage of deer, elk, moose and antelope, not bighorn sheep.

"The salvage rule in Idaho provides opportunity for individuals to recover and possess certain wildlife killed by accidental vehicle collisions so that parts of those animals can be utilized," says Upper Snake Regional Conservation Officer Barry Cummings. "Fortunately, we have seen very few individuals abusing the law and using it to unlawfully smuggle wildlife across the border as was done in this case."

With help from Montana Fish Wildlife and Parks and the Fremont County Sheriff's Office, investigators determined the offender had actually picked up the sheep's head near Ennis, Montana and not in Idaho. In an effort to pass off the salvage as legal, the offender took the sheep to the Fish and Game regional office in Coeur d'Alene, claimed it as an Idaho roadkill and falsified the mortality report.

"We place a high value on our wildlife resources in Idaho and our officers work tirelessly to protect them," says Cummings. "I do appreciate the court taking this case seriously and want to thank all of the agencies involved for their efforts."

CENTURY 21
Beutler & Associates

Randy Cox, 208-699-1424 • Coldwell Banker Schneidmiller Realty

The advertised loan is a conventional 30-year fixed loan with a 30-year fully amortizing term with 2-1 seller, builder, or lender paid buy down. A portion of each monthly payment for the first 24 months will be prepaid by the seller and held by the lender to supplement the buyer's required monthly payment. The buyer required monthly payment is calculated using an interest rate 2% below the note rate for the first 12 months and 1% below the note rate the subsequent 12 months. Savings are calculated as the difference between the Note Rate Principal & Interest Payment and the Reduced Principal & Interest Payment for the first 24 months. Based on an example loan amount of \$619,200 the initial monthly principal and interest payment will be \$3,320.22 for the first 12 months, and \$3,708.44 the subsequent 12 months. After the initial 24-month period, the payment will be calculated using the full note rate of 6.99% resulting in a monthly principal and interest payment of \$4,015.40 for the remaining 28-year term. The example is based on an 80% loan-to-value (LTV). The Annual Percentage Rate (APR) is 7.052%. There is no prepayment penalty. The actual interest rate, APR and payment may vary based on the specific terms of the loan selected, verification of information, your credit history, the location and type of property, and other factors as determined by Lender. Payments shown do not include taxes and insurance, actual payment obligations will be greater. Conditions and restrictions apply. Not all applicants will qualify. Not available in all states. Rates and terms effective 10/23/2023 and are subject to change. Corp NMLS #3113 | Equal Housing Lender | MAC HERE

Montana WILD Welcomed Record Numbers Of Visitors In 2023

— Montana Fish, Wildlife & Parks —

From the outside, Montana WILD looks like a quiet place, but inside staff and visitors are bustling with exploration and hands-on adventures.

2023 was one of the busiest years yet for Montana Fish, Wildlife & Parks' education center on the west side of Helena. Take a look at some of the numbers:

- 17,000 drop-in visitors to the exhibit hall
- 5,500 students attending virtual field trips
- 4,200 students with 119 school groups at the center for field trips
- 2,700 participants in 57 public programs, including bat walks and bird-banding stations

During 2023, Montana WILD updated its exhibit hall and offered new programs including telemetry, nature journaling, bear safety and wildlife yoga, which introduced young learners not only to animal biology and ecology but also to basic yoga poses.

"We strive to keep things new and exciting for our visitors," said Montana WILD Program Manager Corie Bowditch.

FWP also offered new programming for school groups. Students not only learned about the Endangered Species Act, with a specific focus on the black-footed ferret, but also participated in programs focused on population ecology and the anatomy and physiology of mammals using skulls. Montana WILD's transportation grant allowed students to come from as far away as Malta and Eureka for a day of conservation education.

In 2024, Montana WILD hopes to expand its programming even more with the addition of an AmeriCorps member.

"We got to work with some amazing teachers and students last year," Bowditch said. "We look forward to collaborating more with our partner organizations and providing more opportunities to come to Montana WILD to learn and explore with us each day."

For more information and to see upcoming events at Montana WILD, go to fwp.mt.gov/education/montana-wild.

Strange BUT TRUE

By Lucie Winborne

- Residents of the Galapagos island of Floreana use a barrel of disorganized mail in place of a formal postal system. Tourists are responsible for sorting through the mail and grabbing any parcels they can deliver on the way to their destination.
- In curling, good sportsmanship and politeness are essential. Congratulating opponents on plays and abstaining from trash talk are part of what's known as the "Spirit of Curling."
- Apollo 17 astronaut Harrison Schmitt was allergic to moon dust.
- According to the record-holder for tallest waffle stack, Guinness World Records has a 40-page document defining what a waffle is. (Frankly, we think we could have managed it in just 30.)
- Alaska is simultaneously the westernmost and easternmost state.
- High schools and universities in New Zealand are allowed to keep up to a pound of uranium on the premises for educational purposes.
- Marie Curie's notebooks are still radioactive.
- In 2010, rock band Nickelback approached Dark Horse Brewery about having their beer featured in a video, which would have provided great exposure for the small Michigan company. They declined, however, as "none of us at the brewery really care for the band."
- The German version of the term "Average Joe" is Otto Normalverbraucher, which translates to "Otto normal consumer."
- An ordinance in Gainesville, GA, states that everyone must eat fried chicken, "a culinary delicacy sacred to this municipality, this county, this state, the Southland and this republic," with their hands. The tongue-in-cheek law began as a publicity stunt aimed at getting folks to think of Gainesville as the fried chicken capital of the world.
- Polar bears gain more than 400 pounds during pregnancy.

Thought for the Day: "If you're going to do something tonight that you'll be sorry for tomorrow morning, sleep late." -- Henny Youngman

National Pita Day March 29th

— National Day Calendar —

National Pita Day is on March 29 and celebrates the dipping, scooping, and wrapping of as many ingredients as we can think of into this delicious bread. We want everyone from around the globe to celebrate with National Day Calendar as we indulge in a prehistoric delight from the Middle East.

Pita has rich roots dating back about 2.4 million years ago during the Stone Age. Evidence shows the Natufian people in the region that is now Jordan, made a kind of flatbread from wild grains. However, unlike today's pita bread which forms a pocket, the ancient pita bread was thin and flat. The first actual mention of pita bread takes place around 1936. In recent years, pita bread has become very popular in the US and around the globe as a healthy alternative to bread.

What is pita?

Pita bread is a staple of modern-day Middle Eastern and Mediterranean cuisine. Pita is a circular double-leavened flatbread that originated in the Mediterranean, Middle East, and surrounding areas. Though there are plenty of variations that can

be made, pita is traditionally prepared with flour, water, baker's yeast, and salt. In addition, pita bread is naturally low in sugar and calories and is a rich source of protein and fiber.

Most pita bread is baked at high temperatures which steams the water in the dough, causing the pita to puff up and form a pocket. However, pita can also be baked without pockets and is often referred to as a "pocket-less pita."

Ideas for Eating Pita Bread

- As a bread alternative for any sandwich.
- A great "crust" for pizza.
- Toasted for a delicious addition to breakfast.
- As a side to accompany your hot soup or salad.
- For dipping in hummus or tzatziki
- A baked pita cut into pieces makes a great chip.

Pita bread may have ancient beginnings in the Middle East, but it is no longer limited to that part of the world. In fact, popularity in the past few years has grown and restaurants and grocery stores now offer a variety of flavors and options.

3 Ways to Eat Pita Bread

1. Meats: Steak, chicken, falafel, and lamb.
2. Dips: Baba ganoush, hummus, or tabbouleh
3. Sandwich: Chicken salad, fresh vegetable medley, tuna salad

Origins Of National Pita Day

National Pita Day on March 29 first appeared on social media in 2021. Since then, this food holiday is quickly gaining popularity that matches the popularity of bread. As of 2023, National Day Calendar has been unable to find the creator or founder of National Pita Day. Until we do, spend the day enjoying pita bread as a sandwich, dip, or side with soup. Remember to tag #NationalPitaDay when you post your pita bread creations on social media.

Meet Sullivan! He's young and full of life, with days filled with play. He has so much love to give. When he's happy, his whole body wiggles with joy, it's quite a sight! When he's not playing, he loves cuddles, too. Nothing beats snuggling up after a fun day. Sullivan can't wait to find a place where he can play, wiggle, and cuddle every day. If you're looking for a sweet, playful, and cuddly friend, come visit him at BTAA!

dogs. Do you have an active "in the woods" lifestyle that you could maybe add me to?

Hello everybody! My name is Jezebel and I'm a purebred Catahoula leopard dog. I am a 3 months old female. I take a minute to warm up to strangers, but once I trust you, I'm your best friend! We are fantastic companion dogs (think Labrador without the hyperness.) We also make excellent

Hi I'm Blizzard a 3 month old purebred Samoyed puppy. My sister and I are here in rescue seeking a forever home, after being rescued from a bad "greeder" who dumped us to be sold in the parking lot of a pawn shop! We are a very social, very special breed that requires a lot of "you" time and grooming. We also need to be kept cool indoors in the hot Summer months.

We would love an active owner who likes to get out and hike, camp and explore! We are a high energy breed that needs lots of exercise to be happy!

Please email Idahocoondog@yahoo.com or log on to www.scpr.petfinder.com for more info and an adoption.

\$20,000 REWARD FOR missing Bible text to anyone who can find where in the King James Bible it tells anyone to observe Sunday as God's appointed day of rest, or worship. According to God, and your calendar, Sunday is the 1st day of the week. It is the first day of work, just like Monday, Tuesday, etc. God blessed and made Holy only one day of the week, for the rest of worship, and that day is Saturday, the 7th day Sabbath (Genesis 2:2, 3). Yes, Jesus Christ's resurrection happened on Sunday, but He never told anyone to honor that day, nor did any of the 12 apostles did, either. In fact, there is absolutely no one in all the Bible that observed Sunday, in honor of Christ's resurrection. And when people study the Bible, they will find Satan set up Sunday to be observed as his day of rest and worship, in opposition because the 7th day Sabbath (Saturday) is God's appointed sign of loyalty (Ezekiel 20:12, 20), while Sunday is Satan's sign of loyalty. Tim, 208-217-8942 text only
